It's a brand new Model... THE KNITKING KH 881... with all of the outstanding features of previous KNITKING Punch Card machines plus many new features including a Lace Carriage that knits fine lace, normal lace and automatically retracts the end needles of your knitting, thereby eliminating the problems of pushing needles back manually every row... There are Lace Point Cams that permit you to isolate sections of lace card designs... There are new Motif Knitting Cams that make it easy for you to knit one, two or three Motifs as you desire and there is a new design Plating Finger that allows for much easier entry of yarns than on previous Models.

In our opinion the greatest improvement of all is the built in Knitleader with its entirely new and simplified system for chart drawing... Japan is the largest market in the world for knitting machines and the many hundreds of knitting machine schools there repeatedly emphasize the importance of drawing Knitleader Charts to size before starting to knit. Working with a Knitleader insures accuracy and a finished garment that fits.

We know that our readers fortunate enough to obtain a brand new KNITKING KH 881 will be more than thrilled with its ability and extreme versatility.

With the State of the Art Electronic KNITKING Compuknit KH 910... the all new KH 881 Punch Card machine... the 120/258 needles fine knitting machine... the Jumbo CN-9N for heavy yarns plus the Genie 710 Push Button economy priced knitter... and all of their accessories - Ribbers, Knitleaders, Color Changers etc., etc., we know that we have the finest range of knitting machines in the country, and that our services are second to none...

KNITKING SEMINAR AND OPEN HOUSE - 1981

Plans continue and we will be ready for our finest Seminar ever when our doors open on October 12th. There will be many guest celebrities on hand to teach and help you with your knitting problems and we cannot emphasize enough the need to come prepared with your questions written down. It is so easy in the excitement of the moment to forget things, only to remember when you get back home and sit down at your own knitting machine.

The new KH 881 will be featured at the Seminar and we will have the Compuknit demonstrated by the worlds foremost authority Yukiko Mitsumata, the lady (from our suppliers in Japan) who was directly involved with the design of the Compuknit and the preparation of its Instruction Manuals.

General Instructions

HOW TO READ THE CHARTS AND INSTRUCTIONS

There are 3 sizes given for each Pattern in KNITKING MAGAZINE. Above each Chart for the different sizes, you will see that the first and smaller sizes might be shown as 8/10, the second size as (12/14) and the third as [16/18]. Check the measurements at the bustline and hips on the Charts to be certain that you will knit the correct size, remembering these are ACTUAL measurements of the completed section and that there must be a bigger allowance at the bustline and hipline for a Jacket or a Coat than there would be for a fitted dress or a fitted blouse or pullover. The question in your mind should be "How do I want this garment to fit...?"

When you have chosen the size you need, you can follow the Charts as shown. You will notice that where the shapings are the same FOR ALL SIZES, only 1 set of shapings will be shown on the first Chart and if you are knitting the 2nd or 3rd size, you simply follow the shapings as given for the first size. If the shapings are different, this will be shown on the Charts and you should follow them as given.

On the Charts, increases and decreases will be shown as follows

5x1

6 The number in the box means number of ROWS between the shapings, while the 5x1 above the box means - 1 st. 5x... so you will increase or decrease 1 st. every 6th row 5x.

ARMHOLE SHAPINGS - NECK SHAPINGS - SHOULDER SHAPINGS - are made on every 2nd row UNLESS there is a number in a box along side or below the shapings. The rule is... where there is no box with a number, the shaping is made on every 2nd row.

THE PRINTED INSTRUCTIONS

You can follow the printed instructions or use them in combination with the Charts. Where there is any question in the printed instructions, you have the Charts to show you how the section will look.

The 3 sizes, with the different amounts of cast on stitches and the different shapings will look like this...

Cast on 124 (136) [148] sts. You will
Cast on 124 sts. for the first size.
Cast on 136 sts. for the 2nd size.
Cast on 148 sts. for the 3rd size.

The important thing to remember is that you MUST READ AHEAD so that you KNOW what to do for the size you are knitting. Sometimes where the number of stitches are the same but the number of times different, you will find shapings like this...

3 sts. 1x (2x) [3x], 2 sts. 1x (2x) [3x], 1 st. 3x (4x) [5x].
As you see, you MUST read ahead in order to follow the instructions as given for YOUR SIZE. The rows will be different for the different sizes in some cases... Shoulder and Neck shapings usually are worked at the SAME TIME for the back section - so watch for the words AT THE SAME TIME.

HOLDING STITCHES ON THE LEFT SIDE WHILE SHAPING THE RIGHT SIDE

When knitting a section of garment in stockinette stitch, it is easy to hold the stitches on the left side while knitting the right half, but when knitting a Pattern Stitch such as a Norwegian Design, a Holding Position Design, Weaving, etc., you should use the following method. For the NECK SHAPING, we tell you to bind off the center sts., put the needles on the left into holding position and complete the right half first... so with a strand of contrast yarn, knit ALL of the left side stitches manually by hand, pulling each stitch back against the needle bed to the OUT OF WORK position. When the right side is completed, carefully pull the stitches held on contrast, forward into working position and as you do so, undo the contrast yarn, line up the needles (KNITKING AM 3 machine owners, put the stitches under the sinkers) and complete the left half.

If you own a Japanese machine, you may find that when knitting the right half with the left side held in this way, the sinker plate will mark the left side while you are knitting the right half. To prevent this marking, you can tape a piece of paper over the knitting, underneath the sinkers, or if you own a Reversing Bar, you can hang this onto the Sinkers while you are knitting the right half. When hanging the Reversing Bar, be sure the eyes of the bar go BETWEEN the Sinker Posts on the upper part of the bar so that the tips of the bar only - show above the needle bed.

FULL FASHION DECREASING OR INCREASING

For Stockinette stitch, always use the Full Fashion method for increasing or decreasing.

TO DECREASE: Hang the 3rd stitch onto the 2nd stitch then move the stitches in to fill the empty needle.

TO INCREASE: Move the 2 end stitches 1 needle outward, then pick up the 3rd stitch from the row below and hang it onto the empty needle.

FINISHING: Block all sections. For PULLOVERS, JACKETS, and DRESSES: Join front to back at sides and shoulders. Sew sleeves together and set in. Hem lower edge and sleeve edges if needed. For a double neckband or armhole band, sew 1 edge to the inside and 1 to the outside of neck or armhole. For a single ribbed band, sew 1 edge to the outside of neck or armhole edge. For a cardigan or jacket with buttonholes, finish buttonholes and sew on buttons.

PANTS: Join front to back at sides. Sew inside leg seams, then join center front and back. Make hem at waistline and insert elastic. Hem lower edge of pants legs.

THE SAMPLE SWATCH

Before you begin to knit any garment, you will need to knit a sample piece using the yarn you have chosen for your garment, so that you can check the stitch and row gauge which must measure the correct number of stitches and rows in 5 cm (2 inches).

For each Pattern in KNITKING MAGAZINE, we give you 3 tension numbers to work from and if you use the specified yarn for the garment, you should be able to get the correct stitch and row gauge using one of these numbers. Here is a very easy way to make your sample swatch and count the stitches and rows without actually counting, by using our KNITKING Converta Tape.

Supposing the Tension Numbers for the Stitch and Row Gauge are given as 5 to 7. Set the Tension Dial to the first number which is 5. With contrast waste yarn, and using the quick cast on method, cast on 60 stitches and knit 10 rows. Change to garment yarn and turn the Row Counter to 0. Knit 30 rows. Counting from each end, knit the 10th stitch on each side by hand with a small piece of contrast yarn. Leave the needles in working position and knit 30 rows (Row 60), then knit 4 rows with contrast waste yarn. Turn the Row Counter to 0 and the Tension Dial to 6 and with garment yarn, knit 30 rows. Mark the 10th stitch on each side as you did before, knit 30 rows, then 4 rows with contrast waste yarn. Turn the Row Counter to 0 and with Tension 7, repeat the above once more, ending with 10 rows of contrast waste yarn. Remove the work from the machine by passing the Slide across the needles without yarn (sometimes called 'dropping').

Pull and stretch the sample piece both lengthwise and diagonally from corner to corner, then lengthwise again. Do not count the stitches and rows immediately, but allow the sample to rest for several hours or even over night. This will allow the stitches and rows to return to their basic form.

When your sample has rested and you are ready to count the stitches and rows, the KNITKING CONVERTA TAPE will do the counting for you without any counting on your part. Use the Tape as follows:

Measure the stitches with the TAPE, BETWEEN the 40 stitches marked with contrast waste yarn. Push the SLIDE so that the LEFT EDGE lines up to this exact measurement. Now look down along side the SLIDE and find the number 40 on the TAPE. The number directly opposite on the SLIDE will be your Stitch Gauge to 5 cm (2"). To find the number of rows in 5 cm (2"), place the TAPE to measure over the 60 rows, push the SLIDE to this number with the left edge lined up, the look for the number 60 on the TAPE and directly opposite this will be the number of rows to 5 cm (2")

If you do not own a KNITKING CONVERTA TAPE, you must mark a 5 cm (2 inch) square in the center of the knitting, then count the number of stitches and rows within the square.

PRACTICAL KNITTING HINTS

TRIM FOR DK 1001

If you want to make a knitted trim on the machine in place of a crochet edging - try this...

TENSION: 5

Cast on over 5 needles.

Knit 2 rows.

Set machine for holding needles.

*Put the 2 end needles on the LEFT into holding position and knit 10 rows over 3 needles.

Push the 4th needle into working position

Knit 2 rows.

Push the end needle into working position

Knit 2 rows.

REPEAT FROM * for as long as you need.

Here is a new card for you to punch for use with your COLOR CHANGER. Use Fair Isle (Norwegian) technique and begin with *8 rows using 2 colors then 2 rows using 1 color then REPEAT from *. After you have made a sample, be creative and change the colors to make up your own design. The design can be used for Chair Covers, Place Mats, Cushions and other household items as well as for garments.

NEW MAXI LACE BOOK

The following was omitted from our Summer Sale Literature... Another book that sold out rapidly was the LACY PLEAT book... Unfortunately it went out of print and we were unable to restock... If you have one on back order, it will be replaced with the new MAXI LACE book offered in this Sale. We like the up-dated book even better, it has a total of 13 outstanding lace patterns, all illustrated in color. There are Skirts, Tops, Dresses and two garments made on the JUMBO. All Punch Cards are illustrated so that you can punch your own cards and all Charts and Line Drawings have English numerals... The book is printed in Japanese... This is a good buy at our Special price of \$3.95.
