DK 1081

A woman with blonde hair styled in an updo is smiling and posing. She is wearing a textured, light brown and beige knit cardigan with a diamond pattern and a matching dark grey knit skirt. Underneath the cardigan, she wears a light-colored, button-down blouse with a ruffled collar. She is also wearing a necklace with a large, oval, amber-colored pendant and gold hoop earrings. Her right hand is on her hip, and her left hand is raised, touching a dark red wall. The background is a dark red wall with a white decorative frame around the woman. A green plant is visible in the lower right corner.

editorial

We get letters... lots of them... thank goodness!!! If we didn't hear from our readers we would not know what pleases them or what displeases them. The comments regarding our last issue were more profuse than usual and we were glad to know that most readers loved it. The complaints were regarding its late delivery and we apologize for that although at times it seemed to us that we would never get it out. Our printers suddenly suffered the malaise that is unfortunately becoming commonplace in today's troubled times, bankruptcy. Without notifying us, the printers premises were sealed by the receivers with all of our printing materials behind locked doors. We were faced with the problems of finding a new printer and doing much of our work over again.. Hence the delay. We have caught up some of the time with this issue and hopefully will make up for all of the lost time before the year is over.

COMPUTER DRAWN KNITLEADER CHARTS

A frequent request from readers is for more garments for the larger person or for a large range of sizes in our printed instructions. We do endeavor to satisfy all needs, but it is not easily possible to chart and print instructions for all sizes without substantially increasing the size of the magazine and our production costs.

We are fortunate to be living in an age of Computers and hopefully a specially designed Computer is going to solve the problems for us... What we do is furnish the owners of this very sophisticated special Computer with one set of accurately drawn full size charts in one size (say size 12), the Computer has a drafting machine as part of its equipment. It takes all the information from the original charts, the shapings for neck, armholes, waist, bust, etc., and electronically draws a master set of charts. The Computer is then programmed to reproduce and draw sets of charts full size, or to scale in any garment sizes the operator calls for.

Starting with this issue of KNITTING MAGAZINE, we intend offering certain selected garment charts in sizes 8 to 18. We will supply charts full size for owners of Knitleaders or any other charting accessory that works with full size charts, or in half size charts for use with Knit Contour/Radar accessories. We will give charts FREE with the purchase of Kits for selected garments and will sell charts separately to readers who prefer to use other yarns.

The production of Computer drawn charts is costly and our venture will only succeed if you take advantage of it. The fast, easy and accurate way to knit is with a Knitleader or similar accessory. The problem in the past has been the necessity to draw accurate charts. Our service eliminates that problem.

In this issue we offer sets of charts for 3 garments - DK 1081, DK 1083, DK 1087. Any set of charts in any size (from 8 to 18) can be purchased for \$5.00 per set plus 60¢ mailing costs. If you purchase the Yarn Kits for DK 1081 or DK 1087 directly from KNITTING, the Charts will be included free (you must specify size of garment and if you need one half or full size charts). DK 1083 is knitted in 4-ply worsted yarn and we are not furnishing a kit for it.

If this new venture is successful and we receive sufficient orders to cover our expenses, we will expand the service to cover more garments in our next issue.

General Instructions

HOW TO READ THE CHARTS AND INSTRUCTIONS

There are 3 sizes given for each Pattern in KNITKING MAGAZINE. Above each Chart for the different sizes, you will see that the first and smaller sizes might be shown as 8/10, the second size as (12/14) and the third as [16/18]. Check the measurements at the bustline and hips on the Charts to be certain that you will knit the correct size, remembering these are ACTUAL measurements of the completed section and that there must be a bigger allowance at the bustline and hipline for a Jacket or a Coat than there would be for a fitted dress or a fitted blouse or pullover. The question in your mind should be "How do I want this garment to fit...?"

When you have chosen the size you need, you can follow the Charts as shown. You will notice that where the shapings are the same FOR ALL SIZES, only 1 set of shapings will be shown on the first Chart and if you are knitting the 2nd or 3rd size, you simply follow the shapings as given for the first size. If the shapings are different, this will be shown on the Charts and you should follow them as given.

On the Charts, increases and decreases will be shown as follows

5x1

6 The number in the box means number of ROWS between the shapings, while the 5x1 above the box means - 1 st. 5x... so you will increase or decrease 1 st. every 6th row 5x.

ARMHOLE SHAPINGS - NECK SHAPINGS - SHOULDER SHAPINGS - are made on every 2nd row UNLESS there is a number in a box along side or below the shapings. The rule is... where there is no box with a number, the shaping is made on every 2nd row.

THE PRINTED INSTRUCTIONS

You can follow the printed instructions or use them in combination with the Charts. Where there is any question in the printed instructions, you have the Charts to show you how the section will look.

The 3 sizes, with the different amounts of cast on stitches and the different shapings will look like this...

Cast on 124 (136) [148] sts. You will

Cast on 124 sts. for the first size.

Cast on 136 sts. for the 2nd size.

Cast on 148 sts. for the 3rd size.

The important thing to remember is that you MUST READ AHEAD so that you KNOW what to do for the size you are knitting. Sometimes where the number of stitches are the same but the number of times different, you will find shapings like this...

3 sts. 1x (2x) [3x], 2 sts. 1x (2x) [3x], 1 st. 3x (4x) [5x].

As you see, you MUST read ahead in order to follow the instructions as given for YOUR SIZE. The rows will be different for the different sizes in some cases... Shoulder and Neck shapings usually are worked at the SAME TIME for the back section - so watch for the words AT THE SAME TIME.

HOLDING STITCHES ON THE LEFT SIDE WHILE SHAPING THE RIGHT SIDE

When knitting a section of garment in stockinette stitch, it is easy to hold the stitches on the left side while knitting the right half, but when knitting a Pattern Stitch such as a Norwegian Design, a Holding Position Design, Weaving, etc., you should use the following method. For the NECK SHAPING, we tell you to bind off the center sts., put the needles on the left into holding position and complete the right half first... so with a strand of contrast yarn, knit ALL of the left side stitches manually by hand, pulling each stitch back against the needle bed to the OUT OF WORK position. When the right side is completed, carefully pull the stitches held on contrast, forward into working position and as you do so, undo the contrast yarn, line up the needles (KNITKING AM 3 machine owners, put the stitches under the sinkers) and complete the left half.

If you own a Japanese machine, you may find that when knitting the right half with the left side held in this way, the sinker plate will mark the left side while you are knitting the right half. To prevent this marking, you can tape a piece of paper over the knitting, underneath the sinkers, or if you own a Reversing Bar, you can hang this onto the Sinkers while you are knitting the right half. When hanging the Reversing Bar, be sure the eyes of the bar go BETWEEN the Sinker Posts on the upper part of the bar so that the tips of the bar only - show above the needle bed.

FULL FASHION DECREASING OR INCREASING

For Stockinette stitch, always use the Full Fashion method for increasing or decreasing.

TO DECREASE: Hang the 3rd stitch onto the 2nd stitch then move the stitches in to fill the empty needle.

TO INCREASE: Move the 2 end stitches 1 needle outward, then pick up the 3rd stitch from the row below and hang it onto the empty needle.

FINISHING: Block all sections. For PULLOVERS, JACKETS, and DRESSES: Join front to back at sides and shoulders. Sew sleeves together and set in. Hem lower edge and sleeve edges if needed. For a double neckband or armhole band, sew 1 edge to the inside and 1 to the outside of neck or armhole. For a single ribbed band, sew 1 edge to the outside of neck or armhole edge. For a cardigan or jacket with buttonholes, finish buttonholes and sew on buttons.

PANTS: Join front to back at sides. Sew inside leg seams, then join center front and back. Make hem at waistline and insert elastic. Hem lower edge of pants legs.

THE SAMPLE SWATCH

Before you begin to knit any garment, you will need to knit a sample piece using the yarn you have chosen for your garment, so that you can check the stitch and row gauge which must measure the correct number of stitches and rows in 5 cm (2 inches).

For each Pattern in KNITKING MAGAZINE, we give you 3 tension numbers to work from and if you use the specified yarn for the garment, you should be able to get the correct stitch and row gauge using one of these numbers. Here is a very easy way to make your sample swatch and count the stitches and rows without actually counting, by using our KNITKING Converta Tape.

Supposing the Tension Numbers for the Stitch and Row Gauge are given as 5 to 7. Set the Tension Dial to the first number which is 5. With contrast waste yarn, and using the quick cast on method, cast on 60 stitches and knit 10 rows. Change to garment yarn and turn the Row Counter to 0. Knit 30 rows. Counting from each end, knit the 10th stitch on each side by hand with a small piece of contrast yarn. Leave the needles in working position and knit 30 rows (Row 60), then knit 4 rows with contrast waste yarn. Turn the Row Counter to 0 and the Tension Dial to 6 and with garment yarn, knit 30 rows. Mark the 10th stitch on each side as you did before, knit 30 rows, then 4 rows with contrast waste yarn. Turn the Row Counter to 0 and with Tension 7, repeat the above once more, ending with 10 rows of contrast waste yarn. Remove the work from the machine by passing the Slide across the needles without yarn (sometimes called 'dropping').

Pull and stretch the sample piece both lengthwise and diagonally from corner to corner, then lengthwise again. Do not count the stitches and rows immediately, but allow the sample to rest for several hours or even over night. This will allow the stitches and rows to return to their basic form.

When your sample has rested and you are ready to count the stitches and rows, the KNITKING CONVERTA TAPE will do the counting for you without any counting on your part. Use the Tape as follows:

Measure the stitches with the TAPE, BETWEEN the 40 stitches marked with contrast waste yarn. Push the SLIDE so that the LEFT EDGE lines up to this exact measurement. Now look down along side the SLIDE and find the number 40 on the TAPE. The number directly opposite on the SLIDE will be your Stitch Gauge to 5 cm (2"). To find the number of rows in 5 cm (2"), place the TAPE to measure over the 60 rows, push the SLIDE to this number with the left edge lined up, the look for the number 60 on the TAPE and directly opposite this will be the number of rows to 5 cm (2")

If you do not own a KNITKING CONVERTA TAPE, you must mark a 5 cm (2 inch) square in the center of the knitting, then count the number of stitches and rows within the square.

KNITTING NEWS

PRACTICAL KNITTING HINTS

PROBLEM YARNS

You can run into problems when knitting with some yarns, such as FINE MOHAIR, LOOPY YARN or KNITTING WORSTED over every 2nd needle, or hard twisted RAYONS etc... However, before you give up, try the following (for Stockinette stitch only).

Turn the control on your knitting carriage to the KC position and leave it there. This brings the needles into the selecting position and helps to keep the yarn from catching on the gate pegs of the machine. You must watch and pull the knitting down and away from the front of the gate pegs occasionally. Any hard finish yarn should be waxed either by winding the yarn into a ball and at the same time allowing the yarn to pass over a block of paraffin as you wind. (When you do this and you knit from a center pull ball, you should wind the yarn a second time without wax as the first winding could be too tight). You can also use our Super Spray Wax to spray the outside of a cone or ball of yarn periodically as you are knitting. You will be able to feel the pull on the yarn when it becomes necessary to spray again. If, after trying to knit with a specific yarn and nothing works, you should pick out a Weaving Pattern and use the problem yarn for weaving.

A man is shown from the waist up, wearing a light-colored tweed flat cap, a light-colored long-sleeved shirt with a striped tie, and a textured, light-colored sweater vest with horizontal stripes. He is looking to his left with his hands clasped in front of him. He is also wearing a watch on his left wrist. The background is a gradient from blue on the left to light brown on the right. A white decorative frame surrounds the man.
