We really pulled out all the stops for this issue... and we caught up a bit more on time... Tony, our art and layout man certainly displayed his considerable talent in the preparation of the color pages... our photographer did a marvelous job with the excellent garments provided by our design studio and our new printer proved himself to be a master of his trade in completing the beautiful issue you have in your hand..

It is wonderful to be able to write an Editorial without apologizing for problems of publication... We are back in the groove and in control again...

Thanks for all the nice letters telling us how you liked the SEPTEMBER/OCTOBER edition... We are already planning the layout for the JANUARY/FEBRUARY issue and we promise some lovely garments in its pages... If your subscription is due for renewal, please be sure to place it now... Don't miss any of the exciting issues we are preparing for 1976.

Because of the many problems we had in 1975 and because our addressing machine sometimes does not kick out all renewal notices in the correct order, you may have missed an issue... Editions for the last year were SEPT/OCT 1974, NOV/DEC 1974, MARCH/APRIL 1975, MAY/JUNE 1975, JULY 1975, and SEPT/OCT 1975... If you are missing any of these issues, please write and tell us so that we can send them to you.

General Instructions

GENERAL INSTRUCTIONS FOR THIS ISSUE

FULL FASHION DECREASING AND INCREASING

For Stockinette stitch, always use the Full Fashion method for decreasing or increasing.

TO DECREASE: Hang the 3rd stitch onto the 2nd stitch, then move the stitches in to fill the empty needle.

TO INCREASE: Move the 2 end stitches 1 needle outward, then pick up the 3rd stitch from the row below and hang it onto the empty needle.

NORWEGIAN DESIGNS

In the instructions, each row of the Norwegian Design is counted as 1 row but several movements of the Cam Box are needed to complete 1 row.

NORWEGIAN DESIGN WHEN USING THE PATTERN READER

When you use the Pattern Reader and knit a Norwegian Design using several colors, it is necessary to move the trip control lever so that only 1 row registers.

TO MAKE FRINGE

Cut yarn DOUBLE the length of fringe desired (wind around a cardboard or book). Using 2 or more strands of yarn (depending on weight of yarn) fold in half and with a crochet hook, draw folded loop through knitting from the wrong side. Pull strands through loop and tighten.

To make an additional row of knots on fringe, take half the strands from 1 group and half from the next group, then knot together approximately 1" to 2" below and continue across.

FINISHING: Block all sections. For PULLOVERS, JACKETS and DRESSES: Join front to back at sides and shoulders. Sew sleeves together and set in. Hem lower edge and sleeve edges if needed. For a double neckband or armhole band, sew 1 edge to the inside and 1 to the outside of neck or armhole. For a single ribbed band, sew 1 edge to the outside of neck or armhole edge. For a Cardigan or Jacket with buttonholes, finish buttonholes and sew on buttons.

PANTS: Join front to back at sides. Sew inside leg seams, then join center front and back. Make hem at waistline and insert elastic. Hem lower edge of pants legs.

THE SAMPLE SWATCH

Before you begin to knit any garment, you will need to knit a sample piece using the yarn you have chosen for your garment, so that you can check the stitch and row gauge which must measure the correct number of stitches and rows in 5 cm (2 inches).

For each Pattern in KNITTING MAGAZINE, we give you 3 Tension Numbers to work from and if you use the specified yarn for the garment, you should be able to get the correct stitch and row gauge using one of these numbers. Here is a very easy way to make your sample swatch and count the stitches and rows WITHOUT actually counting, by using our KNITTING CONVERTA TAPE.

Supposing the Tension Numbers for the Stitch and Row Gauge are given as 5 to 7. Set the Tension Dial to the first number which is 5. With contrast waste yarn, and using the quick cast-on method, cast on 60 stitches and knit 10 rows. Change to garment yarn and turn the Row Counter to 0. Knit 30 rows. Counting from each end, knit the 10th stitch on each side by hand with a small piece of contrast yarn. Leave the needles in working position and knit 30 rows (Row 60), then knit 4 rows with contrast waste yarn. Turn the Row Counter to 0 and the Tension Dial to 6 and with garment yarn, knit 30 rows. Mark the 10th stitch on each side as you did before, knit 30 rows, then 4 rows with contrast waste yarn. Turn the Row Counter to 0 and with Tension 7, repeat the above once more ending with 10 rows of contrast waste yarn, then remove the work from the machine by passing the Slide across the needles without yarn (sometimes called 'dropping').

Pull and stretch the sample piece both lengthwise and diagonally from corner to corner, then lengthwise again. Do not count the stitches and rows immediately, but allow the sample to rest for several hours or even over night. This will allow the stitches and rows to return to their basic form.

When your sample has rested and you are ready to count the stitches and rows, the KNITTING CONVERTA TAPE will do the figuring for you without any counting on your part. Use the Tape as follows:

To measure the stitches, pull out the Tape to measure BETWEEN the 40 stitches in the center that you marked by hand knitting with contrast waste yarn. Push the red marker on the Tape so that it points to 40 stitches on the Tape. Your stitch gauge to 5 cm (2 inches) will show in the red window on the tape. To find the number of rows in 5 cm (2 inches), place the tape to measure over 60 rows, push the red marker to 60 on the tape and your row gauge for 5 cm (2 inches) will show in the red window... Easy..? If you do not get the correct stitch and row gauge in the first part of your sample, then try the other two.

If you do not own a KNITTING CONVERTA TAPE, you must mark a 5 cm (2 inch) square in the center of the knitting, then count the number of stitches and rows within the square.

PRACTICAL KNITTING HINTS

CABLE DESIGNS

In this issue of KNITKING MAGAZINE, there are Patterns which have a Cable Design and on each side of the twisted stitches there is a knit stitch (on the purl side). For example, DK 208 and DK 210 have this type of Cable Design. The easiest way to do this is... After knitting 20 or 30 rows, drop the stitch on each side of the twisted stitches and unravel them, then with a Latch Tool, latch the stitches up into knit stitches and hang them onto the needles... knit 20 or 30 rows and repeat the procedure, continuing with the twisted Cable as shown on the Line Drawing.

KNIT NECK AND ARMHOLE BANDS ONTO GARMENT SECTION

Sometimes it is easier for you to knit the bands for a neck or armhole right onto the garment sections. This is especially true if the bands are narrow and in Ribbing. DK 210 and DK 211 in this issue are good examples.

After blocking your sections, you can sew 1 shoulder together, then evenly pick up the neck stitches beginning with the open shoulder. Of course, if the back neckband is one section and the front neckband is two sections, you can sew up both shoulders, work the back neckband first, then each of the front sections. When working the armbands, hang a stitch from the shoulder first (as your center stitch) then pick up the stitches evenly on each side. If you are a bit round shouldered, you can space it so that you have an extra 1/2" on the back side of armhole and subtract this amount from the stitches for the front side.

Here is an excerpt from our PRACTICAL KNITTING HINTS BOOK which is no longer available. Although it is for a cast-on band, substitute 'pick up' for cast-on, follow the instructions and when you sew up your Ribbed band, it will be perfect.

When using the Ribber, the first and last stitches MUST always be on the main machine. When joining the sections that are ribbed, the seam at the ribbed part is very noticeable. To prevent this, and to end up with a continuous ribbing of K1, P1 when weaving seams together, you may use this method... On sleeves, round collars, armbands, etc., cast on an even number of stitches and put the first 2 stitches on the main machine. When knitting the bodice sections of a pullover, one of the sections only should have 2 stitches at each end on the main machine. On front bands that are knitted in 3 sections (which will be joined together), put 2 stitches at each end of the neckband section only, on the main machine. For cardigans and jackets, have two stitches at each end of the back section only on the main machine unless the cast on stitches for the front sections are an even number and in this case put 2 stitches on the side edge of each front section on the main machine. When you join the garment sections, always weave the ribbed part together 1 stitch in on each edge and you will see that the seams are an even K1, P1 Ribbing.

NEW PUNCHING ACCESSORY FOR JAC 40

Because we are introducing more and more 24 stitch repeat designs in KNITKING MAGAZINES in order that patterns can be duplicated on other brands of machines, it has become necessary to produce a punching accessory and blank cards for the JAC 40... The PUNCH and BLANK CARDS will be available in DECEMBER... We do not know their price at the time of going to press, but it will not be high, so if you want a PUNCH with BLANK CARDS and instructions, drop us a line and we will let you know as soon as they are available.

PATTERNS DK 219 and DK 220 THIS ISSUE

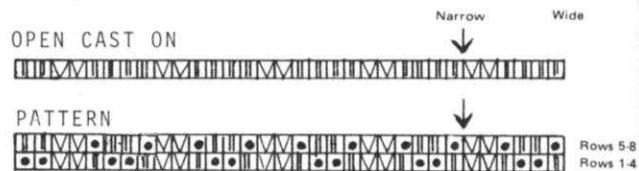

Only after the knitting and photographing of Patterns DK 219 and DK 220 did we decide to make instructions in adult sizes... so, please do not be confused because the dresses are photographed on teenagers...

KNITKING YARN CATALOGUE

We are producing an entirely new Catalogue with a lot of new yarns and new colors... We will be continuing with many of the popular yarns from our present catalogue... Colors and samples of our cone yarns will also be shown and the catalogue will be ready early in the new year... If you have already sent payment in for a catalogue, be patient with us... We have placed you on back order and the catalogue will be sent out as soon as available... If you have not sent in payment, please wait until we ask you to do so.

CHRISTMAS GIFT SLIPPERS

Sometime ago we published a one seam Patterned Slipper. Many of our readers wrote to us saying they make them often as gifts. We are reproducing the Pattern for you to knit for Christmas giving. They are easy and quickly made and make nice bed slippers without the bells.

DO NOT WRAP THE NEEDLES WHEN WORKING PATTERN DESIGN.

MATERIAL: 2 balls Flamingo Dralon will make one pair. Wax the yarn when winding into a ball.
SIZE: Small, Medium, Large. There are two widths for the slippers. The narrow width is like a ballet slipper, the wider width is for those who like the slipper to come up higher on the foot.
TENSION: 7. KNITKING machine owners, use NEEDLE SHIFTER every 4 rows. The Purl side is the right side.

Set up the needles as shown in the Line Drawing - having 18 sts. in working position for the ballet type - 22 sts. in working position for the wider width. Use open cast-on with waste yarn. Knit several rows, ending with Cam Box on the LEFT side. Change to Main Yarn and knit 1 row to the right side. Turn Counter to 0.
 Knit in Pattern to: Row 316 for small size; Row 364 for medium size; Row 412 for large size.

(for extra large size, add 48 rows). Bring all the needles into working position and knit 1 row. Hang the first row of main yarn onto the needles in front of the latches, then knit these stitches through the ones in back of the latches. Bring 1 of the empty needles in each section (of those out of work) into working position and with Tension 10, knit 1 row, then bind off all stitches using the crochet method, dropping the yarn held on the original empty needles..(this was only to make binding off easier and to keep the bind-off elastic). Remove the waste yarn.

CORD: Make 2. Tension 1 to 3. Cast on 3 sts. Set your machine for knitting a cord. KNITTING machine owners, push back the right Cam Control Button and leave it there. (the empty rows do count). Knit 300 rows for small; 330 rows for medium; 350 rows for large and extra large.

FINISHING: Fold slipper in half and beginning at bind off end, and with right sides together, over cast the two bottom edges together. Run cord through openings at top so that you can tie in front. Put bells on ends (or beads) of ties.
