THE INCREDIBLE KNITKING COMPUKNIT KH 910

Rumors regarding the Electronic Computerized Model 910 Knitter have been rampant for more than a year and now at last, the real truth can be told... If you collected all the superlatives used in reference to knitting machines over the years and put them on one label and attached it to the 910 Compuknit, that's how good it is...!! It really is Fabulous... Fantastic... Unbelievable... Miraculous... Marvelous, etc., etc., and there is just no other knitting machine in the world to compare with it. The 910 operates with a true electronic computer through pictures as opposed to Punch Cards. Pattern stitches and designs can be up to 60 stitches wide... they can be reversed (imagine a gorgeous lace design 120 stitches wide) Repeated, Widened, Lengthened, etc., all by the push of a button... and another big, big plus is the fact that the KR 830 Ribber, the KH 820 Color Changer, the KR 830 Color Changer and the 116 Knitleader are all immediately adaptable to the remarkable 910.

We believe the introduction of our Compuknit 910 will mark the start of a new even more exciting era in home knitting machine design and function, so watch for the next issue of KNITKING MAGAZINE... We will have pictures of the KNITKING COMPUKNIT 910 with details of its controls and versatility plus an unbeatable introductory trade-in offer.

KNITKING SEMINAR AND OPEN HOUSE

KNITKING Seminars are acknowledged as 'TOPS' by that elite group of Seminar regulars who have the time to spare and a thirst for knowledge that compels them to travel from one territory to another collecting skills and picking up hints to help them in their own knitting endeavours. Then there are the many hundreds of visitors who attend just one Seminar each year... OURS!! They come from all over the U.S. and many other parts of the world to see how things are done at KNITKING...to learn from our team of experts... to visit with our celebrity lecturers and to take advantage of the fantastic Seminar Specials.

Be sure to reserve the time to be with us. Our OPEN HOUSE and SEMINAR starts Monday, September the 8th and runs until mid-day Saturday the 13th. In addition to our KNITKING Staff, there will be many guest celebrity lecturers and experts. Admission is free as are coffee and doughnuts and we will be demonstrating the fabulous new 910 COMPUKNIT machine.

We look forward to seeing you.

General Instructions

HOW TO READ THE CHARTS AND INSTRUCTIONS

There are 3 sizes given for each Pattern in KNITKING MAGAZINE. Above each Chart for the different sizes, you will see that the first and smaller sizes might be shown as 8/10, the second size as (12/14) and the third as [16/18]. Check the measurements at the bustline and hips on the Charts to be certain that you will knit the correct size, remembering these are ACTUAL measurements of the completed section and that there must be a bigger allowance at the bustline and hipline for a Jacket or a Coat than there would be for a fitted dress or a fitted blouse or pullover. The question in your mind should be "How do I want this garment to fit...?"

When you have chosen the size you need, you can follow the Charts as shown. You will notice that where the shapings are the same FOR ALL SIZES, only 1 set of shapings will be shown on the first Chart and if you are knitting the 2nd or 3rd size, you simply follow the shapings as given for the first size. If the shapings are different, this will be shown on the Charts and you should follow them as given.

On the Charts, increases and decreases will be shown as follows

5x1
6 The number in the box means number of ROWS between the shapings, while the 5x1 above the box means - 1 st. 5x... so you will increase or decrease 1 st. every 6th row 5x.

ARMHOLE SHAPINGS - NECK SHAPINGS - SHOULDER SHAPINGS - are made on every 2nd row UNLESS there is a number in a box along side or below the shapings. The rule is... where there is no box with a number, the shaping is made on every 2nd row.

THE PRINTED INSTRUCTIONS

You can follow the printed instructions or use them in combination with the Charts. Where there is any question in the printed instructions, you have the Charts to show you how the section will look.

The 3 sizes, with the different amounts of cast on stitches and the different shapings will look like this...

Cast on 124 (136) [148] sts. You will
Cast on 124 sts. for the first size.
Cast on 136 sts. for the 2nd size.
Cast on 148 sts. for the 3rd size.

The important thing to remember is that you MUST READ AHEAD so that you KNOW what to do for the size you are knitting. Sometimes where the number of stitches are the same but the number of times different, you will find shapings like this... 3 sts. 1x (2x) [3x], 2 sts. 1x (2x) [3x], 1 st. 3x (4x) [5x]. As you see, you MUST read ahead in order to follow the instructions as given for YOUR SIZE. The rows will be different for the different sizes in some cases... Shoulder and Neck shapings usually are worked at the SAME TIME for the back section - so watch for the words AT THE SAME TIME.

HOLDING STITCHES ON THE LEFT SIDE WHILE SHAPING THE RIGHT SIDE

When knitting a section of garment in stockinette stitch, it is easy to hold the stitches on the left side while knitting the right half, but when knitting a Pattern Stitch such as a Norwegian Design, a Holding Position Design, Weaving, etc., you should use the following method. For the NECK SHAPING, we tell you to bind off the center sts., put the needles on the left into holding position and complete the right half first... so with a strand of contrast yarn, knit ALL of the left side stitches manually by hand, pulling each stitch back against the needle bed to the OUT OF WORK position. When the right side is completed, carefully pull the stitches held on contrast, forward into working position and as you do so, undo the contrast yarn, line up the needles (KNITKING AM 3 machine owners, put the stitches under the sinkers) and complete the left half.

If you own a Japanese machine, you may find that when knitting the right half with the left side held in this way, the sinker plate will mark the left side while you are knitting the right half. To prevent this marking, you can tape a piece of paper over the knitting, underneath the sinkers, or if you own a Reversing Bar, you can hang this onto the Sinkers while you are knitting the right half. When hanging the Reversing Bar, be sure the eyes of the bar go BETWEEN the Sinker Posts on the upper part of the bar so that the tips of the bar only - show above the needle bed.

FULL FASHION DECREASING OR INCREASING

For Stockinette stitch, always use the Full Fashion method for increasing or decreasing.

TO DECREASE: Hang the 3rd stitch onto the 2nd stitch then move the stitches in to fill the empty needle.

TO INCREASE: Move the 2 end stitches 1 needle outward, then pick up the 3rd stitch from the row below and hang it onto the empty needle.

FINISHING: Block all sections. For PULLOVERS, JACKETS, and DRESSES: Join front to back at sides and shoulders. Sew sleeves together and set in. Hem lower edge and sleeve edges if needed. For a double neckband or armhole band, sew 1 edge to the inside and 1 to the outside of neck or armhole. For a single ribbed band, sew 1 edge to the outside of neck or armhole edge. For a cardigan or jacket with buttonholes, finish buttonholes and sew on buttons.

PANTS: Join front to back at sides. Sew inside leg seams, then join center front and back. Make hem at waistline and insert elastic. Hem lower edge of pants legs.

THE SAMPLE SWATCH

Before you begin to knit any garment, you will need to knit a sample piece using the yarn you have chosen for your garment, so that you can check the stitch and row gauge which must measure the correct number of stitches and rows in 5 cm (2 inches).

For each Pattern in KNITKING MAGAZINE, we give you 3 tension numbers to work from and if you use the specified yarn for the garment, you should be able to get the correct stitch and row gauge using one of these numbers. Here is a very easy way to make your sample swatch and count the stitches and rows without actually counting, by using our KNITKING Converta Tape.

Supposing the Tension Numbers for the Stitch and Row Gauge are given as 5 to 7. Set the Tension Dial to the first number which is 5. With contrast waste yarn, and using the quick cast on method, cast on 60 stitches and knit 10 rows. Change to garment yarn and turn the Row Counter to 0. Knit 30 rows. Counting from each end, knit the 10th stitch on each side by hand with a small piece of contrast yarn. Leave the needles in working position and knit 30 rows (Row 60), then knit 4 rows with contrast waste yarn. Turn the Row Counter to 0 and the Tension Dial to 6 and with garment yarn, knit 30 rows. Mark the 10th stitch on each side as you did before, knit 30 rows, then 4 rows with contrast waste yarn. Turn the Row Counter to 0 and with Tension 7, repeat the above once more, ending with 10 rows of contrast waste yarn. Remove the work from the machine by passing the Slide across the needles without yarn (sometimes called 'dropping'). Pull and stretch the sample piece both lengthwise and diagonally from corner to corner, then lengthwise again. Do not count the stitches and rows immediately, but allow the sample to rest for several hours or even overnight. This will allow the stitches and rows to return to their basic form.

When your sample has rested and you are ready to count the stitches and rows, the KNITKING CONVERTA TAPE will do the counting for you without any counting on your part. Use the Tape as follows:

Measure the stitches with the TAPE, BETWEEN the 40 stitches marked with contrast waste yarn. Push the SLIDE so that the LEFT EDGE lines up to this exact measurement. Now look down along side the SLIDE and find the number 40 on the TAPE. The number directly opposite on the SLIDE will be your Stitch Gauge to 5 cm (2"). To find the number of rows in 5 cm (2"), place the TAPE to measure over the 60 rows, push the SLIDE to this number with the left edge lined up, the look for the number 60 on the TAPE and directly opposite this will be the number of rows to 5 cm (2")

If you do not own a KNITKING CONVERTA TAPE, you must mark a 5 cm (2 inch) square in the center of the knitting, then count the number of stitches and rows within the square.

KNITTING NEWS

PRACTICAL KNITTING HINTS

IMPORTANT - We remind our readers to be sure to always read completely through the patterns in our magazine before actually knitting the garment. Many times, there are special instructions for a garment given in the description which is always below the Sizes and the Yarn used. This is not always repeated in the actual instructions - so check it all out.

KK 836 -

We inadvertently inserted copy in the Practical Knitting Hints Column of the previous issue of KNITTING MAGAZINE for the Child's Cape, KK 836... Sorry about that... We are repeating it here where it belongs for this issue.

- The arm slits for the Cape, KK 836 will be easy for you to make if you will use a Cast-on-Strip. After you remove the sts. for the slit onto contrast waste yarn, instead of casting on over the empty needles, just hang on the sts. from the Cast-on-Strip. If you do not remember how to do this, see KNITTING MAGAZINE, Volume 14, No. 4 - Practical Knitting Hints page.

POM PON'S for DK 851

To make the large Pom Pon's shown on the Cover Model DK 851, you will need to cut two round discs approximately 3" in diameter. The soft covers of icecream containers or Cool Whip are excellent to use. After you have cut the two discs, make a round hole directly in the center of each disc approximately 1/2" to 5/8" in diameter. Using color 2, doubled, wind the yarn around a straight back chair (17" across is a good measurement) about 20 times then cut on one side only. Wind color 3 around the chair about 10 times. Take half the strands from color 2 and half from color 3 and put them together. Wind this yarn around the double discs, going through the hole and over and back through the hole, etc., etc. until the disc is smoothly filled. Cut between the two discs all around at the top, then with a double strand of color 2, put it between the discs and pull and tie securely. Now remove the Pom Pon from the discs by pulling one side through the hole. Fluff and trim. Your Pom Pon is completed.
