## KNITTED FASHIONS WITH SET IN SLEEVES

### FOR THE WHOLE FAMILY – 5 PLY

#### CAST ON AND WELTS

All patterns are described to allow for personal choice, which to choose is left to the knitter to decide.

The choice of cast on will depend on whether or not a hem or rib is required. For a hem the open edge cast on – which is time saving – will be suitable whether the hem is turned and closed on the knitter or closed by hand when sewing up the garment.

#### TENSIONS

These garments are all designed for 5 ply yarn. It is necessary to produce:

14½ sts and 21 rows to 2 ins.

We suggest Tension 7.2. However, as each machine varies a little, it is advisable to check your tension. Colors and flecks also affect the tension. All garments have been worked in basic stocking stitch. However, for originality any stitch design may be combined with the instructions for number of rows, shaping, etc; but some stitch patterns produce looser fabrics than stocking stitch and others draw in the fabric. Therefore, it is worthwhile knitting an extra swatch in the chosen pattern and then making a comparison with the stocking stitch swatch – this then will enable you to adjust stitches and rows for size required.

#### TO CHECK TENSION

Knit a sample on the suggested tension on 60 stitches and 60 rows. Leave for at least 12 hours before measuring, which should be done over 4 ins. If the result is too many stitches per inch knit another swatch on a looser tension; if not enough stitches, tighten tension a few points.

\*\*\*\*\*

Whilst we realise that you will find this pattern book most helpful for producing your garments, we would like to mention that it is only suitable for stocking stitch.

Instead of printing numerous pattern books for fancy stitches i.e.: tuck, lace, weaving, etc. Brother Industries have produced a much more reliable method of measuring a garment accurately; simply, quickly:— The KL116 — “Knit-leader” which is a valuable drafting method and a must for every knitter! For further information consult your nearest Brother dealer who will be able to demonstrate the Knitleader for you.

## NECK & CARDIGAN BANDS

Although directions for knitting bands SEPARATELY are given in this book, they can be knitted directly on to the garment to save sewing on. The following instructions are for stocking stitch. If ribbed round, V or polo neck bands are favoured, the stitches are picked up in exactly the same manner as for stocking stitch bands, then knitted according to rib instructions given in this book. Ribbed cardigan bands are knitted separately and then sewn on.

**V NECK BAND:** Sew up one shoulder. With wrong side facing you pick up stitches from open shoulder down to V. Knit on a tension a little tighter than one used for garment. Decrease 1 stitch at V end (using 2 prong transfer tool, move 2 stitches in 1 stitch, pushing empty needle into 'A' position) every 2nd row for depth of hem, then increase 1 stitch every 2nd row for the same number of rows. Pass threaded needle through stitches on machine, then take work off machine. Pick up stitches from back neck down to V on other side and proceed as before. Join V and sew up shoulder, fold band and catch down through open stitches with needle and thread.

**ROUND NECK:** With wrong side facing, pick up stitches around neck from opening. Knit 1 row on normal tension. Then tighten tension 1 or 2 points every 2nd row for depth of band. Turning row is knitted on normal tension. Then reset tension to the one before turning row and increase tension 1 or 2 points every 2nd row for the same number of rows as before turning row, finishing at normal tension. Pass threaded needle through stitches on machine, then take work off machine. Fold band and catch down through open stitches with needle and thread.

**CARDIGAN BAND:** Wrong side facing, pick up stitches from centre back to end of front, or just from neck opening down to end of front — depending on type of cardigan, and knit on a tension at least 3 points tighter than that used for cardigan. Knit required number of rows for band. Turning row is knitted on garment tension and other side of band 3 points tighter again. Pass threaded needle through stitches on machine and take work off machine. Knit other side the same, putting double buttonhole where required. Fold bands and catch down through open stitches. Finish off buttonholes.
