# SINGER SET-IN SLEEVE FASHIONS USING PATONS PATONYLE – 4 PLY

---

These set-in sleeved garments have been designed for all Singer Knitting Machines. The designs for children and adults cover cardigans with round or V necks and jumpers with round, polo or V necks – all styles may have short or long sleeves.

This book has been designed for beginners. However, more advanced knitters may like to add their own variations as stripes, bands of fairisle, or single motif fairisle.

**NOTE:** Tuck and weaving stitch designs are not suitable.

To ensure the success of your knitting the first part of this book has been devoted to advice on tensions, measurements, hems and ribs, decreasing, buttonholes and qualities of yarn required.

## Tensions

These garments have been designed for Patonyle – a 4 ply Fingering.

In order to match the sizes shown in this book it is essential to produce the correct tension. The correct stocking stitch tension is:

31 stitches to 10 cm

44 rows to 10 cm

For all Singer machines we suggest Tension 6 – however, as each machine varies it is advisable to check your tension. Various colours and flecks can also affect the tension.

**To check tension:** Knit a sample with 60 stitches on a tension one point below suggested tension, e.g. 5.2 – knit 60 rows and mark work – then change to T.6 and knit 60 rows, then T.6.1 for 60 rows or use gauge scale. Remove the sample from the machine and leave for at least 12 hours before measuring.

## Measurements

We have used average measurements; however, individual requirements may need the lengths to be altered. At the point for alteration the instructions have been marked “adjust here”. For shorter lengths deduct 11 rows for each 2.5 cm and for longer lengths add 11 rows for each 2.5 cm.

If altering lengths, remember to alter all body pieces and both sleeves if required. For cardigans the bands also need alteration.

## Decreasing

Decreasing for set-in sleeves should not be obvious as in raglan garments. To decrease place 2nd last stitch onto last then move both back to 2nd needle and push empty needle out of action.

## Hems and Ribbing

Instructions are given for both hems or ribbing, allowing for individual requirements.

**Hems** are turned up and may be completed on the machine or sewn by hand later.

There are two types of hems:

1. Stocking stitch.
2. Imitation rib—where the given number of needles are selected and then every alternate needle is pushed out of action. When the hem is completed remember to put the alternate needles back into action.

**Ribbing:** The instructions are for K1, P1 or single rib using a ribber attachment.

**Tensions:** For stocking stitch hems the tension is one number tighter than the normal tension. For imitation rib and K1, P1 rib the tension is 2 numbers tighter than the normal tension.

## Buttonholes

The correct placement of buttonholes is given in all cardigan bands. These may be worked in either K1, P1 rib or imitation rib.

**K1, P1 Rib:** 1. For small buttons—transfer the centre ribber bed stitch onto the above main bed stitch—there are now two stitches on one needle. Leave the empty rib needle in action and continue knitting.

2. For larger buttons—transfer the centre ribber bed stitch onto the above main bed stitch, then transfer the next main bed stitch onto

next ribber stitch. There will now be on each bed two stitches on one needle and one empty needle. Leave the empty needles in action and continue knitting.

**Imitation Rib:** The bands in imitation rib are made double the width and folded back—therefore on the same row 2 buttonholes are to be made on needles mentioned in the instructions and when folded are stitched together. To make the buttonholes knit 2 stitches together and leave the empty needle in action.

## Materials

The figures quoted are for 4 ply 25 gm balls. If alterations are made to lengths also alter quantities.
