HOW TO USE THE YARN TWISTER

Three stepped pitches (20 cm, 15 cm, 10 cm) can be attained by changing belt hanging position as illustrated below.

second yarn
main yarn

BE SURE TO OPERATE THE HANDLE IN CLOCKWISE DIRECTION

FIX TWISTER BY THE CLAMP

INSERT TENSION HOLDER

●Direction of twist can be altered by changing hanging manner of belt as illustrated below.

BOBBIN ADJUSTING DIAL

to adjust tension of second yarn against main yarn.

AT DIAL "0"
The tension is weakest.

AT DIAL "10"
The tension is strongest.

ATTACH TENSION DIAL

TENSION DIAL

to adjust tension of main yarn
●Direction "+" induces weaker tension.
●Direction "−" induces stronger tension.

HOW TO THREAD AND TWIST TWO STRANDS OF YARN

● Locate main yarn between tension discs.

1
main yarn

second yarn

● Tie two strands of yarn together.

2

stepped pulley
yarn hook

● Insert yarn hook through center hole of the pulley. Then, hook a knot of two yarns and pull it out.

3

HOW TO WIND SECOND YARN

winding shaft

1
Remove belt placed on stepped pulley "A" and mount bobbin onto bobbin shaft.

2
guided by hand

Wind second yarn on bobbin by hand several times.
Start the second yarn by left hand and wind it up automatically by operating handle with right hand.

3
Take off the bobbin when the winding finished.

4
rotating shaft

Mount firmly the bobbin with the second yarn onto rotating shaft, and place the belt to the original position.

yarn presser
reset up

yarn guide
yarn holder

4
● Pass the yarns under yarn guide, and up onto yarn holder rod by raising up yarn presser with your finger, and then replace yarn presser in position.
