

The Mens & Boys Book

KNITMASTER

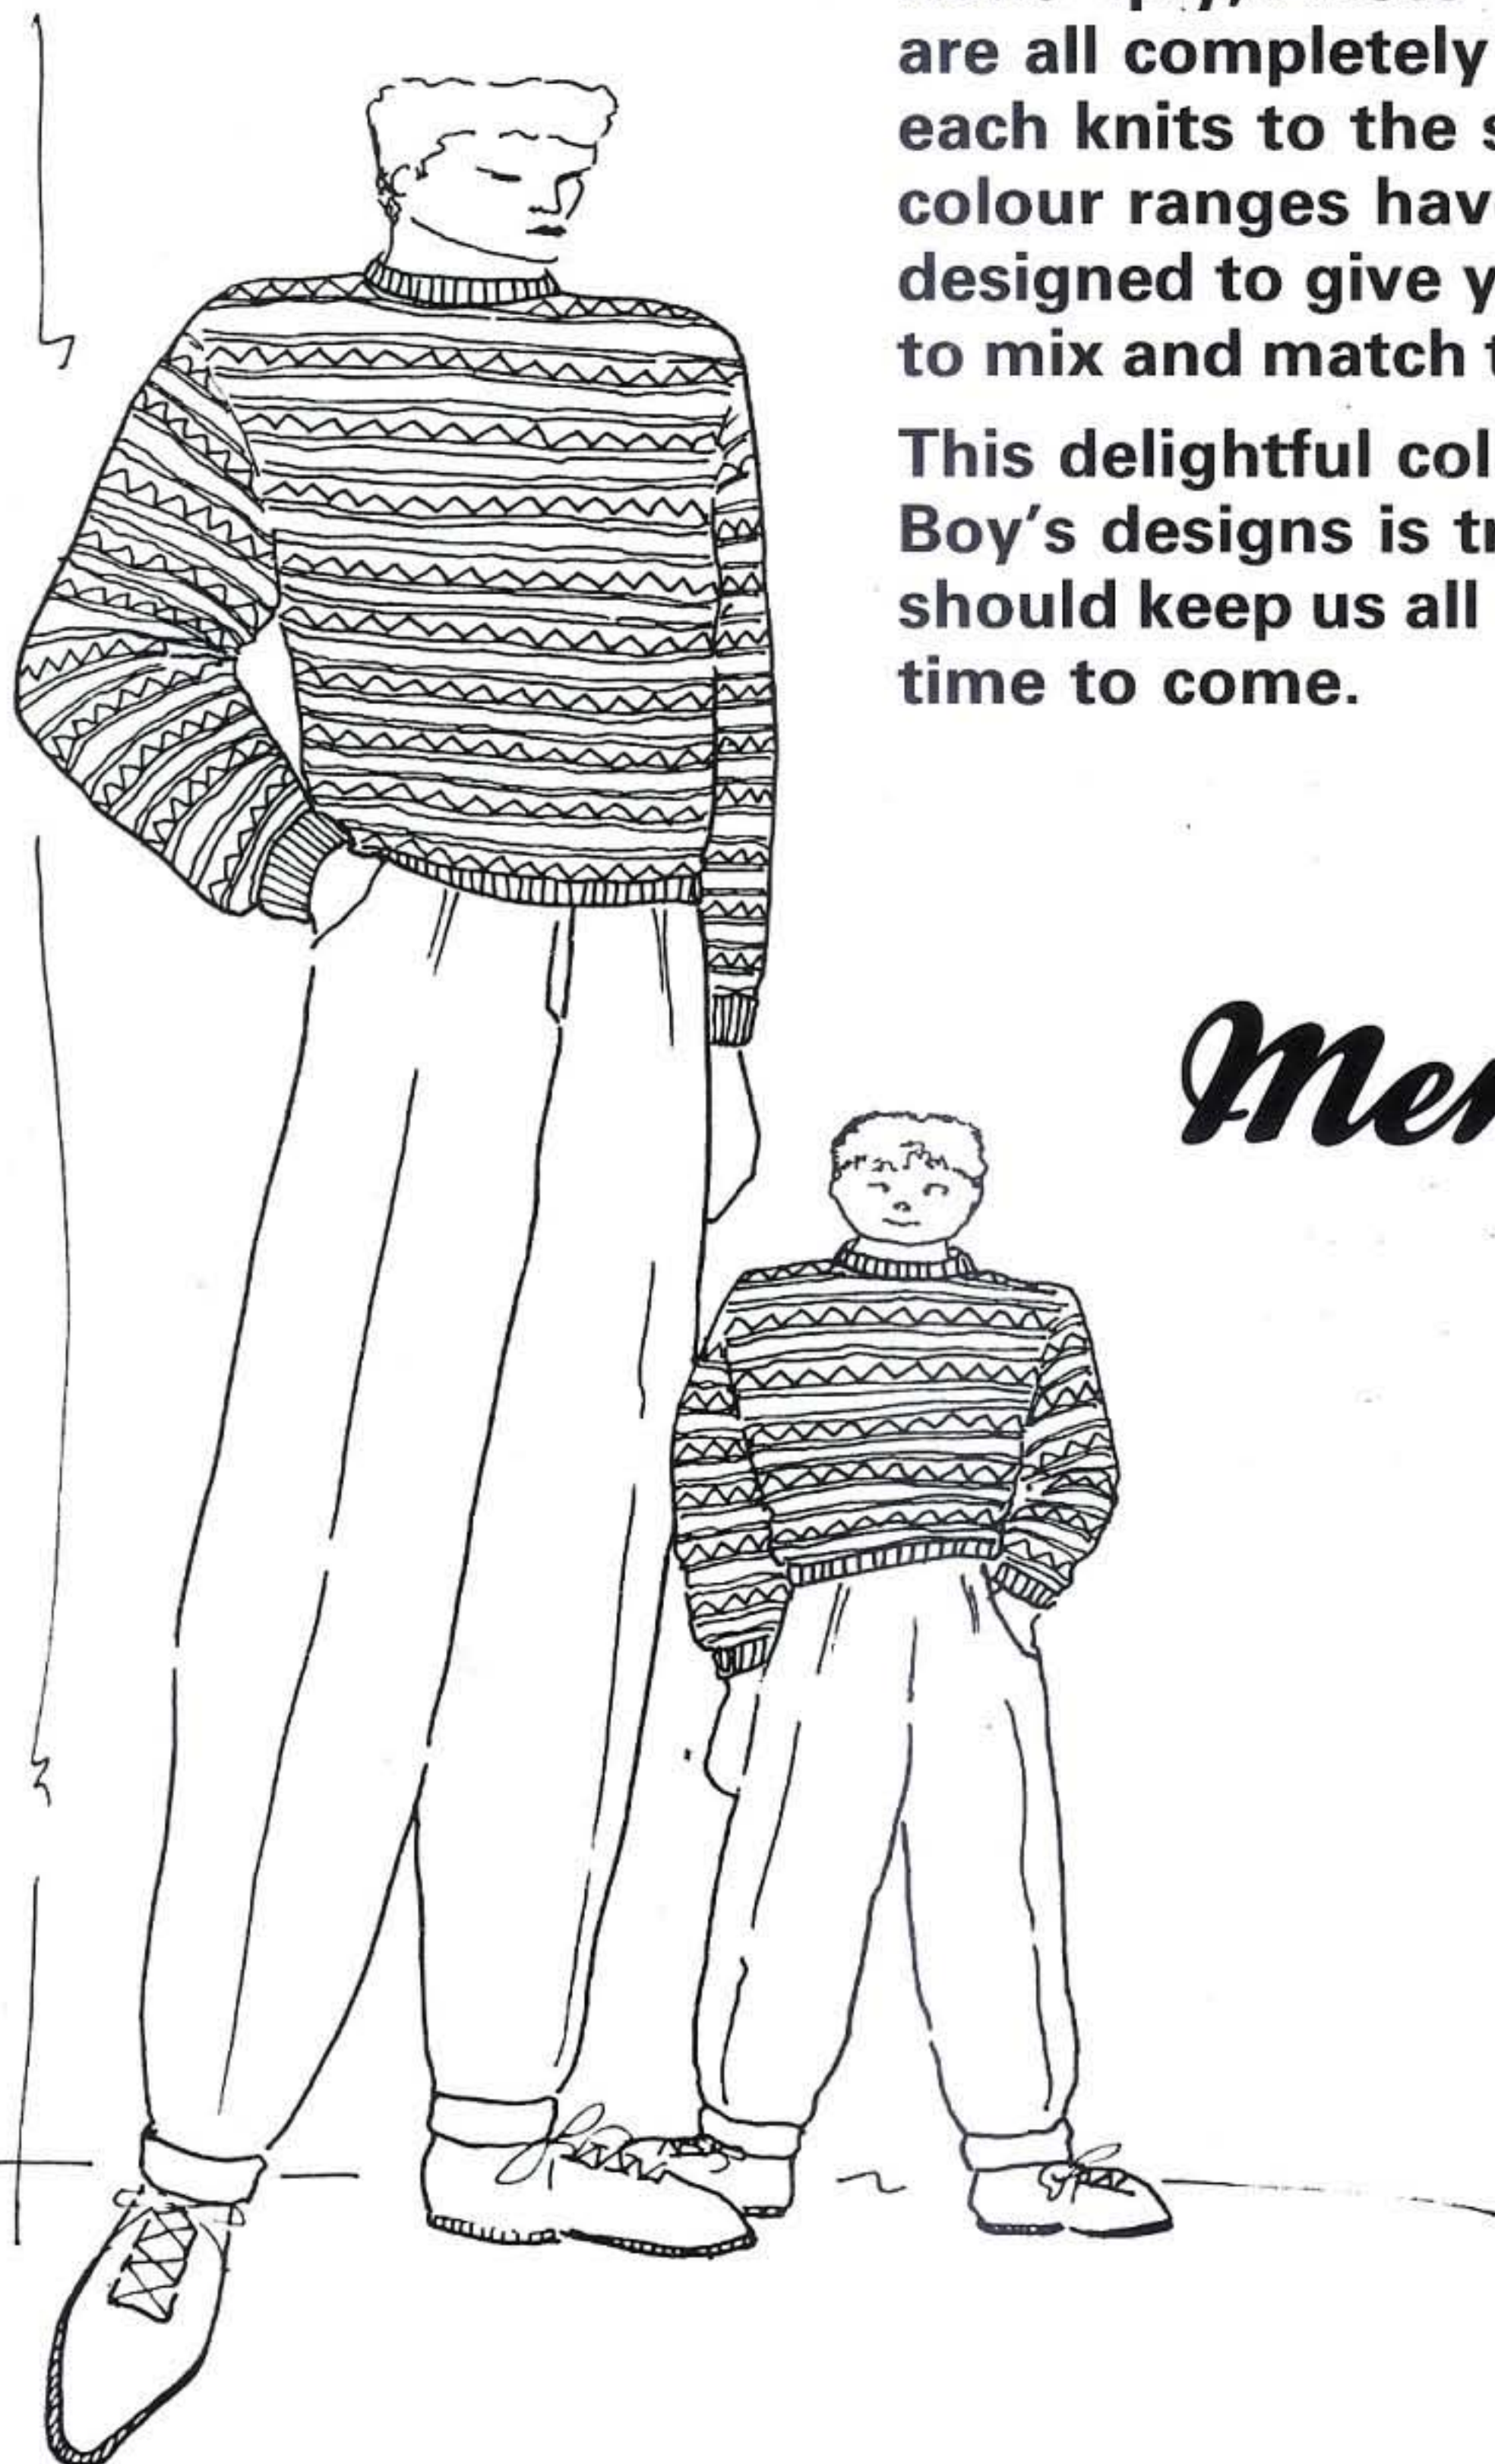

creative **KONE**

4PLY · ANETO · BLACKJACK

The Men's and Boy's Book should fill quite a gap in your pattern collection. We all know how difficult it is to find good quality men's patterns, but it seems to be almost impossible to find any patterns at all for teenage boys. Therefore, we have designed our Men's collection to accommodate teenage sizes and, in some cases, we've even produced a version for little boys. Won't little boys just love wearing the same sweaters as their dads?

Three of the quality yarns we have used in this book — Knitmaster Kone 4ply, Aneto 4ply and Blackjack — are all completely interchangeable since each knits to the same tension and the colour ranges have been carefully designed to give you the full opportunity to mix and match them to the best effect.

This delightful collection of Men's and Boy's designs is truly versatile and should keep us all knitting for quite some time to come.

1 "DASH" MOTIF SWEATER

We usually associate single motif Fair Isle with one isolated motif, often pictorial, but here's an unusual use of single motif. It's been used to create a random geometric pattern simply by placing the motif cams in a different position for each block of pattern. Why not try this random placing of motifs using some other punchcard designs you have?

Pattern Note:

Single Motif — see punchcard chart. Insert card into machine and lock on row 1. *Set machine to knit single motif over centre 24 Ns. Take carr across twice without knitting. Release card. Set carr for Fair Isle. With col 1 in feeder 1 and col 2 in feeder 2, knit 14 rows. Lock card on row 1. Set machine to knit single motif over Ns 12 to 36 at right of centre O. Knit 2 rows stockinet col 1. Release card. Set carr for Fair Isle. With col 1 in feeder 1 and col 2 in feeder 2, knit 14 rows. Lock card on row 1. Set machine to knit single motif over Ns 12 to 36 at left of centre O. Knit 2 rows stockinet col 1. Release card. Set carr for Fair Isle. With col 1 in feeder 1 and col 2 in feeder 2, knit 14 rows. Lock card on row 1. Set machine to knit single motif over Ns 36 to 60 at right of centre O. Knit 2 rows stockinet col 1. Release card. Set carr for Fair Isle. With col 1 in feeder 1 and col 2 in feeder 2, knit 14 rows. Lock card on row 1. Set machine to knit single motif over Ns 36-60 at left of centre O. Knit 2 rows stockinet col 1. Release card. 2 BOY'S FLECKED POLO-SHIRT SWEATER

These unusual sweaters have been knitted using slip stitch, working with several different colours to create this attractive fabric. Try knitting a sample piece of the fabric, following the instructions in the pattern note, to familiarise yourself with this type of fabric construction. You might then like to work on some of your own colour combinations to create your own individual version of this fabric.

If you don't own one of Knitmaster's new SRP60 or SRP60N ribbers yet, you won't be able to knit these sweaters with the attractive two tone effect. However, you can still knit a single colour version of them simply by using two ends of the same colour. Don't try using two different colours or you'll end up with a very 'patchy' sweater.

Pattern Note:

Back, Front & Sleeves — see cable chart 1
Neckband — see cable chart 2
When dropping sts hook a thread through the dropped sts so they do not run back into the rib.

Cables are always a very effective way of creating texture and, in this case, we've used them in blocks of two to create even more texture. Notice how we've introduced cables on the neckband to give a more interesting neckline. You might like to use this idea to add interest to some of your favourite plain designs.

If you don't own one of Knitmaster's new SRP60 or SRP60N ribbers yet, you won't be able to knit Pick Rib automatically. However, if you really badly want to knit one of these sweaters, you can knit Pick Rib manually by setting your ribber carriage to knit for 2 rows in colour 1 and then tuck for 2 rows in colour 2. But, be warned, it will take you considerably longer than knitting it automatically with the new ribbers.

9 MAN'S BRIGHT BLUE RIB SWEATER

Variation English Rib isn't used often, but as you can see, the basketweave effect it creates is most effective. The classic shape of this sweater should also be a firm favourite with any man and, since it will look good in almost any colour, you could end up knitting many versions of this over the next year or so.

FROM

KNITMASTER — SRP-60N RIBBER

Knitmaster's newest ribber — the SRP-60N — will fit all standard gauge Knitmaster punchcard machines from the 321 onwards, and all Knitmaster standard gauge electronic machines.

Even owners of older models of machines can give their knitwear a whole new look, with some of the designer look patterns which can be knitted on Knitmaster's SRP-60N.

- Choose
- Pile knitting for a looped, towelling effect.
 - Drive lace for large and small stitches in the same row.
 - Fisherman's rib for those ever popular, cosy sweaters.
 - Plating rib for one of the most fashionable rib stitches around.
 - Punch pin tuck for lovely ripple patterns.
 - Punch tuck rib for textured, honeycomb effects.
 - Pick rib for that Italian designer look.

Use the ribber and YC-6 colour changer for double face Jacquard, double face tuck, and double face slip.

The easy-to-attach ribber fits quickly and neatly onto your machine, and more than doubles the choice of stitch patterns you can knit.

KNITMASTER'S KNITRADAR — THE ULTIMATE GRAPHIC PATTERN SYSTEM.

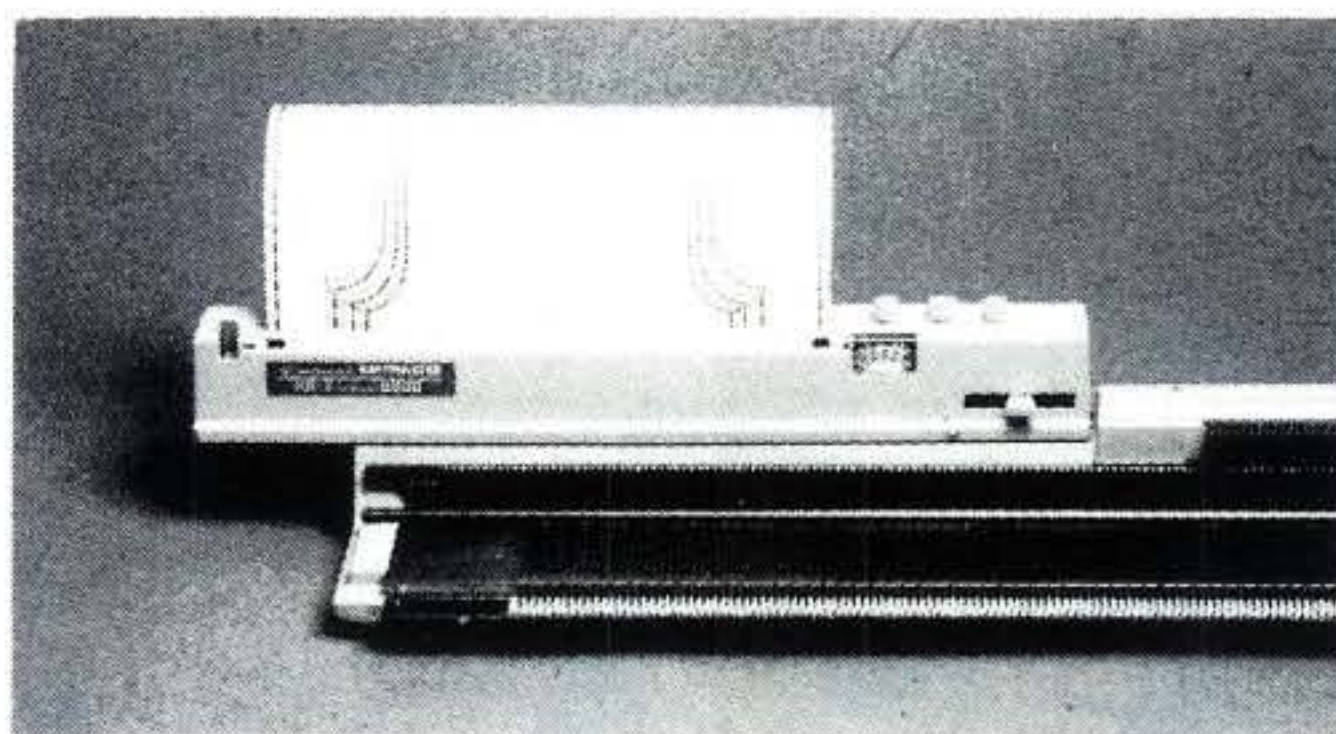

Add Knitmaster's knitradar to your machine — and make sure every garment you knit is a perfect fit.

Knitmaster's knitradar works from a diagram pattern — similar to a dressmaking pattern — which shows you exactly how many stitches to cast on, and where and when to increase and decrease.

You choose the yarn — the stitch pattern — the garment shape — and the knitradar does the rest.

Add the knitradar to any gauge of Knitmaster machine.

ADDITIONAL NOTES

NOTE FOR ELECTRONIC OWNERS

Although some of the patterns in The Men's & Boy's Book have been written for owners of Knitmaster Standard Gauge *punchcard* machines, those of you who own Knitmaster Electronic machines can also knit from these patterns.

Place the N1 cam between needles 12 and 13 at the right of centre O. This will give you the same pattern placing as punchcard machines. If you need to move the N1 cam at any stage to another position on the machine, move it in blocks of 24 needles to keep the same pattern position.

Set the pattern width indicator to 24.

To use the punchcard charts, simply fill a square on your design card where a hole is marked on the punchcard chart, and leave the squares on your design card blank where there are no holes marked on the punchcard chart.

NOTE FOR FINE GAUGE OWNERS

Although all the patterns in The Men's & Boy's Book have been written for Knitmaster Standard Gauge machines, those of you who own Knitmaster Fine Gauge machines can also knit from these patterns.

To achieve the same tensions as stated in the patterns, you should knit with the Tension Dial set approximately two numbers higher than suggested in the pattern.

Substitute the punchcard designs with Fine Gauge punchcards of your own choice.

RIBS

You will find that most patterns state the need for a ribbing attachment at the beginning of the pattern. However, if you look at the designs, you will find that very often the ribbing attachment is necessary only for knitting welts, cuffs, bands etc. In these cases, if you don't have a ribber you should either knit a mock rib or use the latch tool method for making your ribs.

10 MAN'S INTARSIA TRIANGLE SWEATER

Here's an unusual use of intarsia which creates a very dramatic effect. Intarsia has been used only to create the 'points' in this design so it will be a great deal quicker to knit than many intarsia designs. Several different colour combinations can be effectively used for such a simple design and you may even like to introduce a little texture by using Knitmaster Aneto 4ply or Blackjack. Both these yarns will knit to the same tension as Kone 4 ply so can easily be substituted.

11 MAN'S CHESTNUT & BLACK STRIPEY SWEATER

You would naturally assume this sweater had been knitted using Fair Isle, but it is in fact tuck stitch which not only creates a nice weight of fabric, but also eliminates the problem which often occurs with vertical stripes in Fair Isle — the small gap which appears between each stripe. The double neckband on this sweater is an interesting feature and one which you can easily transfer to other V neck designs.

12 BOY'S CREAM DOUBLE RIB SWEATER

Although these sweaters are referred to as double rib, this isn't strictly true. We've left an occasional needle in Non Working Position on the ribber which creates additional surface interest. To create an alternative neckline, replace the neckband with a collar simply by knitting from the collar instructions given in patterns 2 and 3.

14 BOY'S CHECK SWEATER

The stripes on the man's version of this sweater have been created by making small hems on the machine, while the boy's version uses the same technique to create the horizontal lines and uses Swiss Darning to add the vertical lines. Choose whether you knit a stripe sweater or a checked sweater.

We've used the punchcard design for these sweaters in two different ways. Simply by swapping the colours around we have changed the emphasis of the pattern on the top half of the sweaters. You might like to try introducing more colours or varying the stripe sequence to make your own alternative variations.

Single Motif - see punchcard chart B

The neckline of this sweater can be varied quite easily. Create a more classic look by knitting the collar in dark green rib or even omit the front opening and knit a classic rib neckband. The tiny single motif is an extremely elegant touch which you might like to use to add interest to other plain designs.
