The full working instructions together with the line charts, colour and stitch pattern charts for each model in this book can be found under the respective model number on the following pages.

MODEL 1 TURQUOISE SWEATER WITH FLOWERS

Sizes: 12/14(16/18). Instructions for the larger size are in brackets. One figure only applies to all sizes.

Machines: Suitable for Brother standard gauge machines with garter carriage.

Material: WELCOMME "Le Derby" (100% pure wool, 150m/50g) approx. 700(750)g turquoise. Small amount white Angora for the embroidery. Flowers, beads and sequins.

Ribs: 1 X 1 rib with garter carriage.

Pattern: Stitch World Pattern 501. Copy of pattern for punchcard machines available from Reader Service.

Tension: 23 sts and 37 rows = 10cm at TD approx. 10.

Back: Cast on 110(118) sts and knit 30 rows rib. Knit several rows waste yarn and release from machine. Replace sts on NB, increasing 20 sts evenly across the row

= 130(138) sts. Set RC 000 and knit in pattern. Increase 1 st at each side on every 16th row 5 times = 140(148) sts. Knit straight to RC 216 and shape back neck. Cast off centre 30 sts and knit each side separately. At neck edge cast off on alt. rows 4 sts once, 3 sts once and 1 st once. Cast off rem. 47(51) sts at RC 224.

Front: Cast on and knit as for back to RC 204. Shape neck by casting off centre 14 sts and knitting each side separately. At neck edge cast off on alt. rows 4 sts once, 3 sts once, 2 sts twice and 1 st 5 times. Cast off shoulder sts at RC 224.

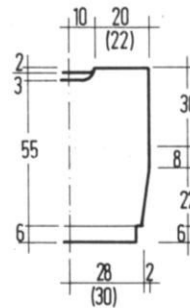

Sleeves: Cast on 60 sts and knit 30 rows rib. Transfer all sts to MB, increasing to 74 sts evenly across the row. Set RC 000 and knit in pattern. Increase 1 st at each side on every 4th row 30 times and on every 2nd row 3 times = 140 sts. At RC 128, cast off loosely.

Neckband: Cast on 120 sts for rib. Knit 3 rows rib on each of TD settings of 5, 6, 7 and 8. Knit 1 row st st at TD 10 and cast off.

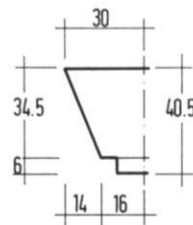

Finishing: Swiss-darn flower shapes at random.

Sew on beads and sequins. Close shoulder seams and

sew on neckband. Set in sleeves and close remaining seams.

Chart 1

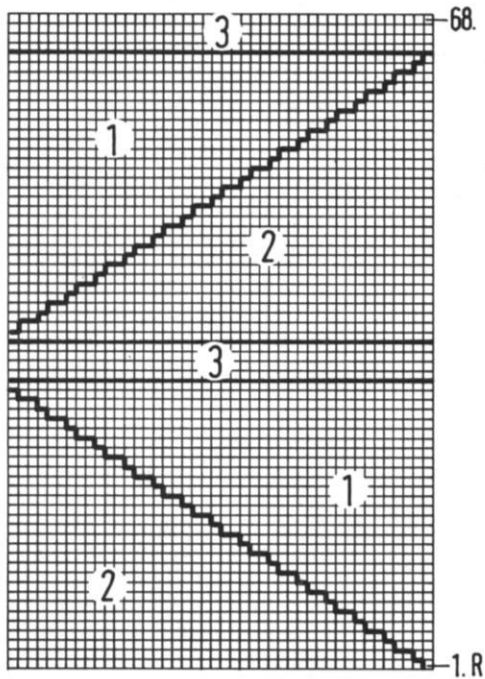

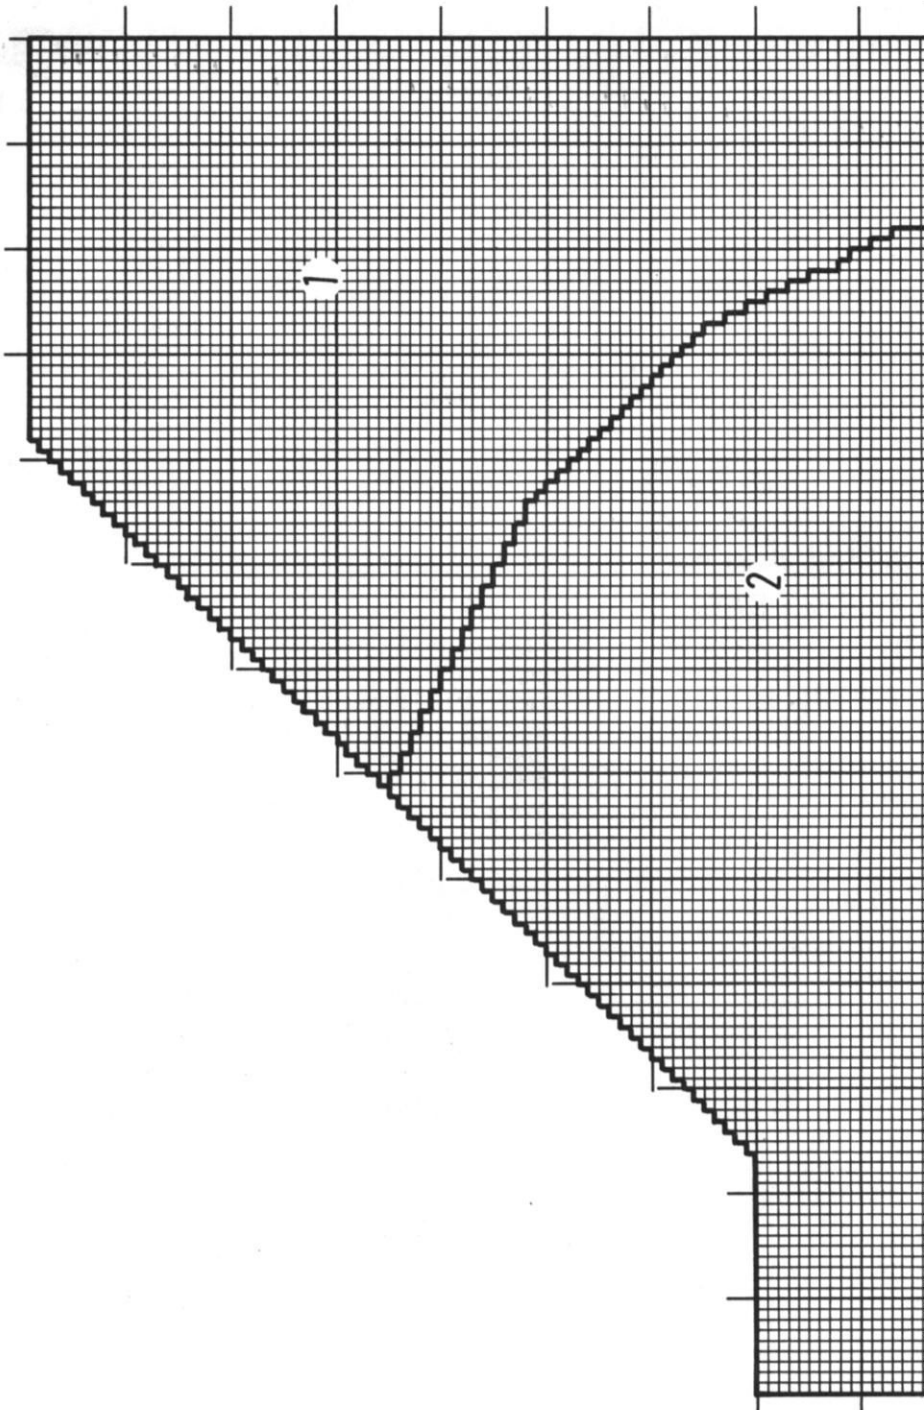

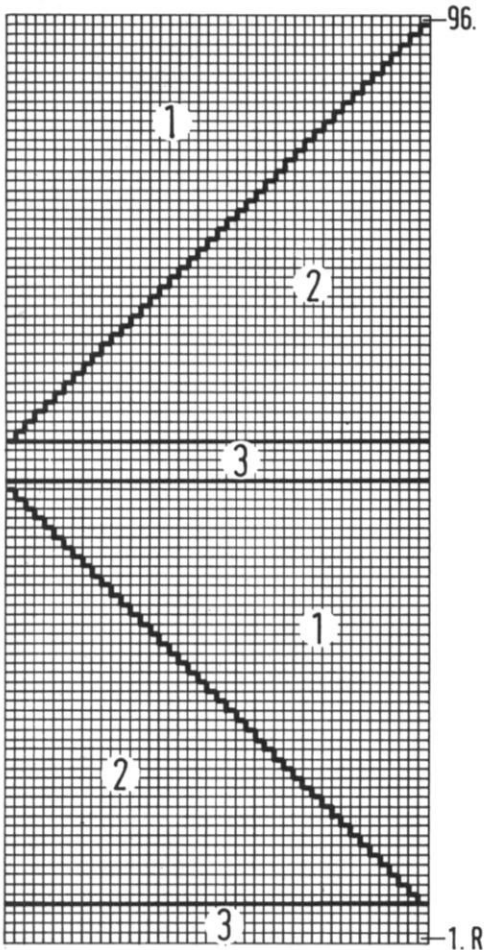

Chart 2

Have you decided on yarn and the model of your dreams? Then there are still a few things worth thinking about:

Beginners should keep to fairly easy models first. Otherwise, if what they are knitting should not meet their expectations – and that would certainly be the case with models for the advanced knitter – then they could quite possibly become disheartened and give up all hope of ever being successful with needles and yarn.

Whether you are a beginner or an advanced knitter, never forget the tension sample. This should not be made too small and you should be able to measure 10 x 10 cm quite easily in the middle of the sample. Selvedge stitches frequently lead to false results.

*

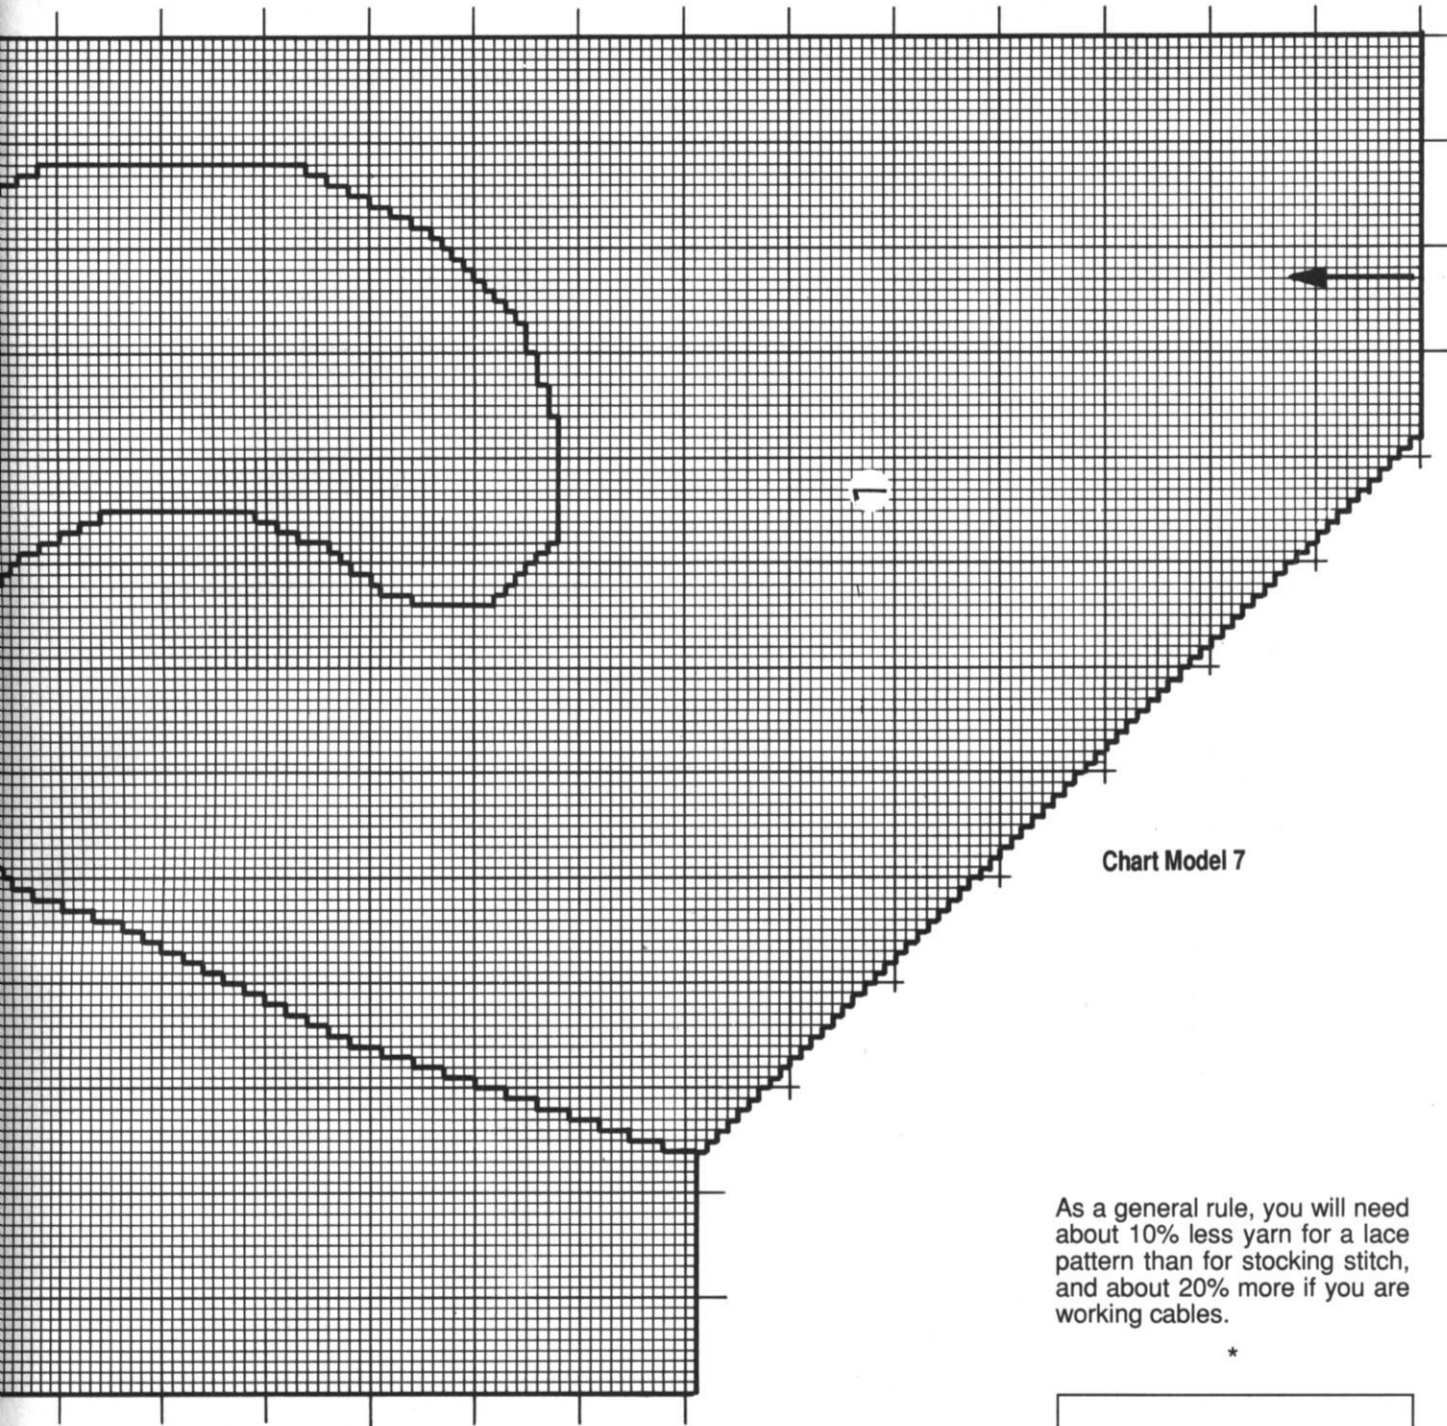

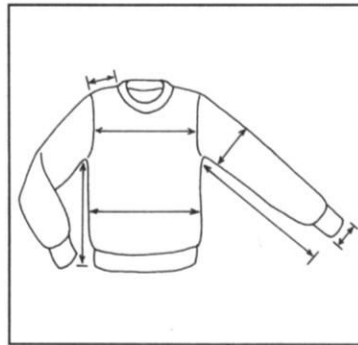

Chart Model 7

As a general rule, you will need about 10% less yarn for a lace pattern than for stocking stitch, and about 20% more if you are working cables.

*

Taking your measurements: to measure your bust place a tape measure loosely round the largest part of your bust. The waist measurement is taken at the narrowest point.

Don't be tempted to work your tension sample only a couple of centimeters in height. Frequently your tension won't change until you have actually worked several pattern repeats.

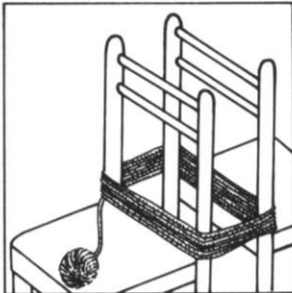

Even if you have used the same yarn for another model, always work another tension sample as each pattern requires a completely different number of stitches.

*

Tip

Winding up yarn

if you buy yarn as a skein (as is usually the case with natural yarns) or unravel a piece of knitting to re-use the yarn (and this is certainly still worthwhile today), then proceed as follows:

Place the skein round the backs of two chairs, draw the chairs apart until the skein is quite taut and cannot become tangled. The yarn can then be wound up without having to enlist the help of anybody else.

*

This method can also be used to smooth out unravelled yarn, only here the yarn has to be dampened first. When it has dried it will be nice and flat and ready for the next piece of work.

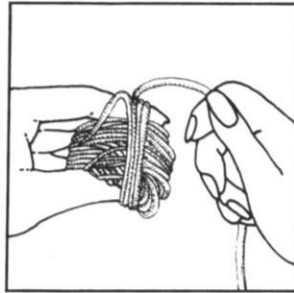

*

Or you can take the skein of yarn off the backs of the chairs and tie up the opposite ends. Hang one end up on a hook and a weight or something equally heavy on the other. Once the wool has dried, it will be as good a new!

To ensure that the yarn unrolls easily when knitting, wind it up as follows:

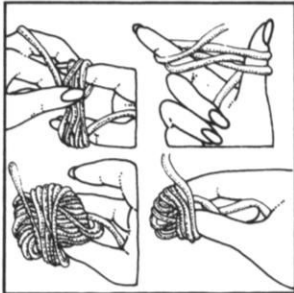

Now is the time to decide on whether you prefer the yarn to run off the outside or come out from the inside of the ball

*

This is the way the yarn runs off from the outside. Wind the thread a couple of times round two fingers, take this "ball centre" in one hand and hold between two fingers, wind the yarn round the remaining fingers, constantly changing direction. This way the ball remains loose and is easy to knit from.

*

Wind the yarn a couple of times round the thumb and index finger, remove from the fingers, place together, then wind up the yarn, changing direction frequently.

You must check the tension!

Before starting work on the garment, you must always check the tension. This will save you trouble in the long run. Also, you can use the test squares later on to make up an attractive patchwork blanket – so the effort really pays off. Work a test square in the pattern stated to be at least 15 cm x 15 cm (6"x6"). Then use stiff card to make a square with another square cut out (like a window frame) measuring 10 cm x 10 cm (4"x4"). By laying this frame over your tension square you'll find it easy to count stitches and rows. If the tension is too tight, use a size larger needle. If it's too loose, use a size smaller needle – using, of course, the yarn stated in the instructions.
