either side can be used

Explanations: Starting Position always lock at the right, i.e. after having formed the zig-zag and knitted the necessary tubular rows always knit one more row without pattern / Nd = needle, Col = colour, L = left, R = right / Cast on with racking = set needles for chosen

stitch pattern, then, before forming the zig-zag move back bed 1 Nd to the left (full circuit of handle) and afterwards return back bed to the right in the Starting Position. / Inc = increasing, Dec = decreasing, W.P. = Working Position, N.P. = Neutral Position, Ser. = Series
