THE BROTHER COLLECTION

In this book you will find 16 patterns from the young designer Sue Allen, some of which we have used in our recent TV campaign featuring the Nolan Sisters.

This is the first ever publication where every pattern is suitable for all our standard gauge machines, therefore, you will find each pattern has the block for the KH710, a punchcard and, of course, the mylar sheet information for the electroknits.

With the mixture of mens and womens garments and designs for the young and old I think you will find something for every member of the family.
