editorial

A big 'Thank You' is certainly due all those good people who take the time to write and tell us how much they look forward to KNITTING MAGAZINE... Sometimes we are taken to task for being late with an issue or two, but generally you do seem to appreciate the problems that can be encountered in the preparation and printing of a high quality publication by a company such as ours that is not in the magazine publishing business.

Your letters contain requests for specific types and styles of knitwear and among these there is an occasional one that asks for something to challenge the skill of even the technically advanced knitter. This is not easy to do as we usually try to satisfy the needs of the majority, but we have two garments in this issue, HP 448 and DK 466 that some readers will have fun knitting... If, however, you like the style of the garment, but do not want to be bothered with the detailing, you certainly can go ahead and make the man's sweater without the fancy yoke or the ladies cardigan without the Aran Isle design.

Also in this issue, we are offering the front cover garments and DK 465 in a brand new European yarn called Boucle. We have a quantity of it in stock just for readers who want to reproduce them exactly in the colors we used... Please let us know how you like the Boucle...

Talking about the colors used in our garments... We have been asked by our yarn department to suggest once more that you can make a color selection different to those used by us... Kits are not made up in advance, so you do have freedom in your color choice. Sometimes certain individual garments are so popular that we sell out entirely of the colors we used and have to write back to customers for alternates. Our Cone Yarns are made in the U.S.A. but our balled yarns come mainly from Europe... which means that it takes from 4 to 6 months to replenish stocks...

We are well stocked on practically all of our Catalogue yarns at this time so be sure to take advantage of the big discounts (given only to KNITTING MAGAZINE subscribers) explained in detail in KNITTING NEWS every issue.

PRACTICAL KNITTING HINTS

PICKING UP STITCHES FOR A BAND

Here are some hints for picking up stitches when you wish to knit a band.

A DOUBLE BAND: Pick up the stitches from the **WRONG** side of your garment. If the purl side is the right side, pick up the stitches from the knit side. If the knit side is the right side, pick up the stitches from the purl side.

FACING: that turns in to the wrong side of garment: Pick up the stitches from the **RIGHT** side of your garment.

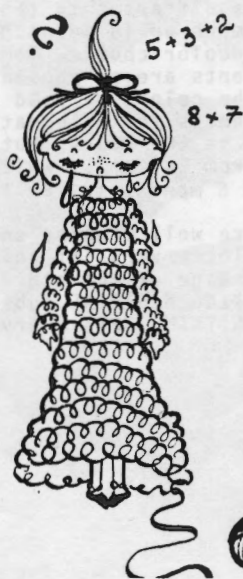

RIBBING BANDS: If you use the crochet method for binding off in Ribbing, pick up the sts. from the **RIGHT** side of your garment as this will give a nicer edge.

There are different methods for picking up stitches to knit a band. If you begin your garment with waste yarn and work in a Pattern stitch for the body of garment, then work the band later, you usually must decrease a specific number of rows across the knitting before working the band. Hang the sts. onto the machine, doubling the sts. as needed. Remove the waste yarn, knit 1 row Stockinette stitch, THEN transfer every other stitch to the Ribber for your K1, P1 Ribbing.

If you do not have open stitches to work from (for instance around the neck or armhole), always pick up the 2nd half of the edge stitch in order to have a neat row for the beginning of your band.

We receive letters asking for the conversion of GRAMS to OUNCES.... so we are printing a Chart which you can refer to. Most of our yarn is put up in 50 gram balls and we will use the 50 grams for our basic measure.

NUMBER OF BALLS	= GRAMS	= OUNCES

BONUS PUNCH CARDS

Here are two fun cards for you to punch yourself. You can use the number of colors suggested and use your 820 Color Changer or you can use fewer colors. If you use your Color Changer, you must punch the card in REVERSE. Where the illustrated cards have holes, you leave them blank and where they are blank, you punch holes.

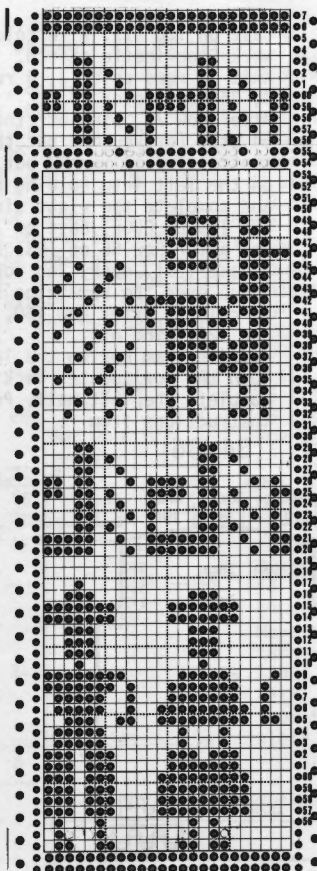

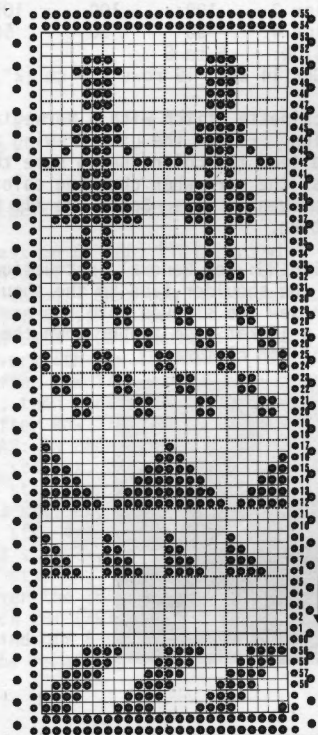

Use the designs on casual knits... or for childrens knits... they will love them.

6 colors are used for this Design as follows:

- 6 rows colors 1 + 2
- 2 rows color 1
- 2 rows color 2
- 2 rows color 1
- 4 rows colors 1 + 3
- 2 rows color 1
- 6 rows colors 1 + 4

REPEAT from the beginning.

Plan your own colors for this Card... you can use 8 or less colors for a REPEAT Design or use the Card as a BORDER Design.

General Instructions

HOW TO READ THE CHARTS AND INSTRUCTIONS

There are 3 sizes given for each Pattern in KNITKING MAGAZINE. Above each Chart for the different sizes, you will see that the first and smaller sizes might be shown as 8/10, the second size as (12/14) and the third as [16/18]. Check the measurements at the bustline and hips on the Charts to be certain that you will knit the correct size, remembering these are ACTUAL measurements of the completed section and that there must be a bigger allowance at the bustline and hipline for a Jacket or a Coat than there would be for a fitted dress or a fitted blouse or pullover. The question in your mind should be "How do I want this garment to fit...?"

When you have chosen the size you need, you can follow the Charts as shown. You will notice that where the shapings are the same FOR ALL SIZES, only 1 set of shapings will be shown on the first Chart and if you are knitting the 2nd or 3rd size, you simply follow the shapings as given for the first size. If the shapings are different, this will be shown on the Charts and you should follow them as given.

On the Charts, increases and decreases will be shown as follows

5x1

6 The number in the box means number of ROWS between the shapings, while the 5x1 above the box means - 1 st. 5x... so you will increase or decrease 1 st. every 6th row 5x.

ARMHOLE SHAPINGS - NECK SHAPINGS - SHOULDER SHAPINGS - are made on every 2nd row UNLESS there is a number in a box along side or below the shapings. The rule is... where there is no box with a number, the shaping is made on every 2nd row.

THE PRINTED INSTRUCTIONS

You can follow the printed instructions or use them in combination with the Charts. Where there is any question in the printed instructions, you have the Charts to show you how the section will look.

The 3 sizes, with the different amounts of cast on stitches and the different shapings will look like this...

Cast on 124 (136) [148] sts. You will
Cast on 124 sts. for the first size.
Cast on 136 sts. for the 2nd size.
Cast on 148 sts. for the 3rd size.

The important thing to remember is that you MUST READ AHEAD so that you KNOW what to do for the size you are knitting. Sometimes where the number of stitches are the same but the number of times different, you will find shapings like this...
3 sts. 1x (2x) [3x], 2 sts. 1x (2x) [3x], 1 st. 3x (4x) [5x].
As you see, you MUST read ahead in order to follow the instructions as given for YOUR SIZE. The rows will be different for the different sizes in some cases... Shoulder and Neck shapings usually are worked at the SAME TIME for the back section - so watch for the words AT THE SAME TIME.

HOLDING STITCHES ON THE LEFT SIDE WHILE SHAPING THE RIGHT SIDE

When knitting a section of garment in stockinette stitch, it is easy to hold the stitches on the left side while knitting the right half, but when knitting a Pattern Stitch such as a Norwegian Design, a Holding Position Design, Weaving, etc., you should use the following method. For the NECK SHAPING, we tell you to bind off the center sts., put the needles on the left into holding position and complete the right half first... so with a strand of contrast yarn, knit ALL of the left side stitches manually by hand, pulling each stitch back against the needle bed to the OUT OF WORK position. When the right side is completed, carefully pull the stitches held on contrast, forward into working position and as you do so, undo the contrast yarn, line up the needles (KNITKING machine owners, put the stitches under the sinkers) and complete the left half.

If you own a Japanese machine, you may find that when knitting the right half with the left side held in this way, the sinker plate will mark the left side while you are knitting the right half. To prevent this marking, you can tape a piece of paper over the knitting, underneath the sinkers, or if you own a Reversing Bar, you can hang this onto the Sinkers while you are knitting the right half. When hanging the Reversing Bar, be sure the eyes of the bar go BETWEEN the Sinker Posts on the upper part of the bar so that the tips of the bar only - show above the needle bed.

FULL FASHION DECREASING OR INCREASING

For Stockinette stitch, always use the Full Fashion method for increasing or decreasing.

TO DECREASE: Hang the 3rd stitch onto the 2nd stitch then move the stitches in to fill the empty needle.

TO INCREASE: Move the 2 end stitches 1 needle outward, then pick up the 3rd stitch from the row below and hang it onto the empty needle.

NORWEGIAN DESIGNS:

In the instructions, each row of the Norwegian Design is counted as 1 row but several movements of the Cam Box (or Slide) are needed to complete 1 row.

NORWEGIAN DESIGN WHEN USING THE PATTERN READER

When you use the Pattern Reader and knit a Norwegian Design using several colors, it is necessary to move the Trip Control Lever so that only 1 row registers.

FINISHING: Block all sections. For PULLOVERS, JACKETS, and DRESSES: Join front to back at sides and shoulders. Sew sleeves together and set in. Hem lower edge and sleeve edges if needed. For a double neckband or armhole band, sew 1 edge to the inside and 1 to the outside of neck or armhole. For a single ribbed band, sew 1 edge to the outside of neck or armhole edge. For a cardigan or jacket with buttonholes, finish buttonholes and sew on buttons.

PANTS: Join front to back at sides. Sew inside leg seams, then join center front and back. Make hem at waistline and insert elastic. Hem lower edge of pants legs.

THE SAMPLE SWATCH

Before you begin to knit any garment, you will need to knit a sample piece using the yarn you have chosen for your garment, so that you can check the stitch and row gauge which must measure the correct number of stitches and rows in 5 cm (2 inches).

For each Pattern in KNITKING MAGAZINE, we give you 3 tension numbers to work from and if you use the specified yarn for the garment, you should be able to get the correct stitch and row gauge using one of these numbers. Here is a very easy way to make your sample swatch and count the stitches and rows without actually counting, by using our KNITKING Converta Tape.

Supposing the Tension Numbers for the Stitch and Row Gauge are given as 5 to 7. Set the Tension Dial to the first number which is 5. With contrast waste yarn, and using the quick cast on method, cast on 60 stitches and knit 10 rows. Change to garment yarn and turn the Row Counter to 0. Knit 30 rows. Counting from each end, knit the 10th stitch on each side by hand with a small piece of contrast yarn. Leave the needles in working position and knit 30 rows (Row 60), then knit 4 rows with contrast waste yarn. Turn the Row Counter to 0 and the Tension Dial to 6 and with garment yarn, knit 30 rows. Mark the 10th stitch on each side as you did before, knit 30 rows, then 4 rows with contrast waste yarn. Turn the Row Counter to 0 and with Tension 7, repeat the above once more, ending with 10 rows of contrast waste yarn. Remove the work from the machine by passing the Slide across the needles without yarn (sometimes called 'dropping'). Pull and stretch the sample piece both lengthwise and diagonally from corner to corner, then lengthwise again. Do not count the stitches and rows immediately, but allow the sample to rest for several hours or even over night. This will allow the stitches and rows to return to their basic form.

When your sample has rested and you are ready to count the stitches and rows, the KNITKING CONVERTA TAPE will do the counting for you without any counting on your part. Use the Tape as follows:

To measure the stitches, pull out the Tape to measure BETWEEN the 40 stitches in the center that you marked by hand knitting with contrast waste yarn - Push the red marker on the Tape so that it points to 40 stitches on the Tape. Your stitch gauge to 5 cm (2 inches) will shown in the red window on the tape. To find the number of rows in 5 cm (2 inches), place the tape to measure over 60 rows, push the red marker to 60 on the tape and your row gauge for 5 cm (2 inches) will show in the red window... Easy...? If you do not get the correct stitch and row gauge in the first part of your sample, then try the other two.

If you do not own a KNITKING CONVERTA TAPE, you must mark a 5 cm (2 inch) square in the center of the knitting, then count the number of stitches and rows within the square.

A young girl with brown hair and bangs is smiling and posing with her hands raised above her head. She is wearing a short-sleeved, button-down cardigan with horizontal stripes in blue and yellow, and blue knitted shorts with a tassel at the waist. She is standing next to a two-tiered white cake. The background is a solid tan color. The entire scene is framed by a decorative border of concentric circles in black, white, and yellow. In the bottom left corner, there is a small red toy figure.
