Issue #30

Stitch scales for the Knit Contours

Part #	Series	Color/ Size	Scale	Zero left/center	Gauges
03026825	E1-E9	13.5" yellow	1/2	L	9-30
02016822	H1-H15 KR-7	13.5" beige	1/2	C	9-54
07116775	H8-H14 SK-700	13.5" beige	1/2	C	24-50
20850046	F1-F15 KR-7/SK700	13.5" aqua	full	L	9-54
12440335	H4-H14 Q1-Q6 KR-10/11	7" white	1/2 1/4	L C	15-50 9-20.5
08142119	1-7 KR-6	9" white	1/2	L	23-50
15370047	11-16 KR-6	9" white	1/2	C	23-44
16110041	B1/B2 KR-6	9" white	1/2	L	15-22

"Gauge" indicates the number of stitches in 10 centimeters.

The 7" scales fit the KR-10/11. 9" scales fit the KR-6/SK-360/560. 13.5" scales fit the KR-7 and the SK-700.

For 1/2 scale, center zero scales for the KR-10/11, order #02016822 and trim to fit. To use for 1/4 scale, read each marking as two stitches instead of one, with KR unit set for 1/4 scale.

Gauge rulers for measuring swatches for the Knit Contour

Gauge Ruler	Machine	Tagged Stitches/Rows to measure for Knit Contour
Blue #07266885	All 9 mm (chunky) machines	20 stitches/30 rows
Yellow #12434288	All 6.5 mm (mid gauge) machines	30 stitches/40 rows
Green #08252116	All 3.6 and 4.5 (fine and standard gauge) machines	40 stitches/60 rows

Charting Tools

Free Line Drawer

Part #35080043

This flexible ruler is marked in full and half scale in centimeters. It is especially useful because you can shape it to form neckline and armhole curves, then just trace them onto contour paper. If you work in inches, remember that 10 cm is approximately 4 inches.

Triangular Half Scale Ruler

Part #35020049

This triangular ruler is marked in full and half scale centimeters on one side, full and half scale, inches on the other. Used half scale, this is probably the most popular charting tool. Think of it as a ruler that "lies to you". That is, when the ruler indicates 5", it is really only measuring 2.5". It eliminates all the math when converting from full to half (or half to quarter scale).

Curved Triangle

Part #03420049

This ruler is marked in full, half, quarter and fifth scale in centimeters only. The long edge is curved slightly and is useful in drawing garments.

Mini Curved Triangle

Part #02230043

This smaller triangle is marked in fifth and quarter scale centimeters.
