DIAGRAM PATTERNS

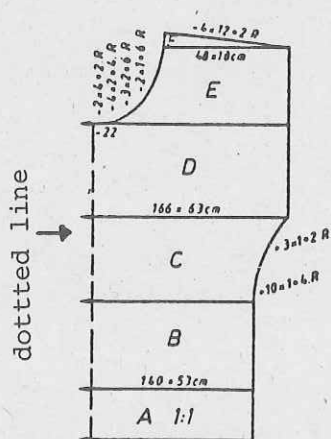

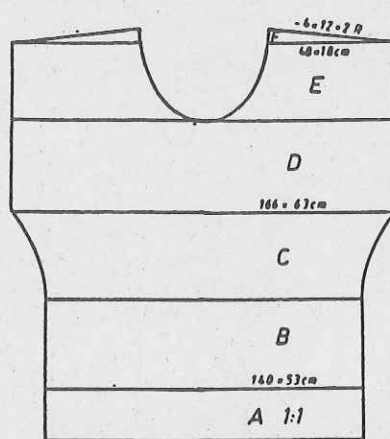

Diagram
This pattern diagram only shows half of the shape being knitted.

Knitting
This is the actual shape being knitted following the indications in the diagram on the left.

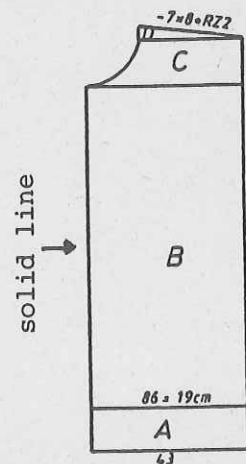

Diagram + Knitting
Here the diagram and the shape being knitted are identical since the centre line is not dotted; in this case the diagram represents a jacket front.

Note : The number of stitches always refers to the whole width, i.e. our sweater is 140 stitches wide at the bottom.

4 INCREASING AND DECREASING

- +3x2·8.R** = increase 2 stitches every 8th and following 8th rows 3 times in all (i.e. the distance between the increases is always 8 rows.)
- 19x3·6.R** = decrease 3 stitches every 6th and following 6th rows 19 times in all (i.e. the distance between the decreases is always 6 rows.)
- 17x1·2./4.R** = decrease 1 stitch alternately once after 2 rows and once after 4 rows 17 times in all.
- ▲-4x8·2.R▲** = the black triangles indicate increases or decreases with short rows (graduations).
When decreasing, the stitches are not being cast off but the pushers are brought to Rest Position [for ELECTRONIC 6000 'out of work' = pushed right down].
When increasing, not the actual stitches are increased but pushers are gradually brought to Working Position.

NUMBER OF STITCHES

Normally the stitches indicated refer to the stitches of the front bed, the stitches of the back bed are taken for granted.

(I.e. when you have to decrease two stitches, for double bed knitting this means two stitches have to be decreased on the front bed and two stitches on the back bed.)

Note : If you are not knitting with all the needles but only with every alternate needle (e.g. 1:1 rib), you still have to count the the empty needles between the needles carrying stitches, i.e. the number of stitches will indicate the width on the needle bed across which you are going to knit.

Exception : For certain patterns where on the back bed, but not on the front bed, you knit with all needles (e.g. transfer patterns) it may be more practical to count only the stitches on the back bed.

Important : Always look at the indications given for 'Test Square'. For all double bed patterns we indicate how to count the stitches.

U70, U80, U100, U100E

- U70 Can be used with the DUOMATIC S, DUOMATIC 80, ELECTRONIC 6000.
All the patterns knitted with lever position  for U80/U100 and U100E can also be knitted with the U70.
- U80 Can be used with the DUOMATIC S and DUOMATIC 80
- U100 Can be used with the DUOMATIC S and DUOMATIC 80
- U100E Can be used with the DUOMATIC S, DUOMATIC 80 and ELECTRONIC 6000

FORM PROGRAMME

5

Enter the measurements of your test square as follows :

- A** = enter the measurement in mm of 40 rows of your test square
B = enter the measurement in mm of 40 sts of your test square
C = enter the measurement in mm of 40 rows of the band. Note :
It is possible for 'C' to appear twice in a programme, in which case the same measurement has to be entered twice.

Flashing figures :

For the flashing figures 1 to 5 you will no longer find separate explanations in the descriptions. What has to be done when these flashing figures appear, can be looked up in the general explanations which should in any case be studied carefully before you start to knit.

The general meaning of the flashing figures is as follows :

- 1** Cast on over the indicated number of needles on the front bed.
- 2** Transfer from band to pattern.
- 3** Divide work into two equal halves for neck opening.
- 4** End of first shoulder, to knit second shoulder press key 'GO'.
- 5** End of knitting.

For many garments you will find for the neck or armhole band, or even the front bands of a jacket, the remark :

"Use programme for 'band knitted straight', using the following programme :

80
100
 . mm 40 R
 . mm 40 sts
4
1
 .
38 } cm width of band
4 } or neck opening
1 }
 .
6
6
 . cm height of band
0

Important : In both places where it says "width of band or neck opening", always enter the same measurement in both places.

Width of band or neck opening always means the width you obtain from the stitches you have cast on.

Height of band always means the measurement you obtain from the rows you have knitted.

Whilst every care is taken to ensure the accuracy of the patterns, charts, diagrams, etc published in the Model Book, MADAG and their dealers accept no responsibility whatsoever for any damage, loss or the like arising from their use.

Fig. I with self-punched deco card 1, 1 black square on pattern sheet = 1 hole in deco card [Stitch patt 1221] → REP. POSITION = YES, PATT.AFT R 68, TO R/L 18, REP.R = NO, REP.STS = NO, Knit Tech 188]

Fig. III (once) with self-punched deco card 2 [self-drawn pattern sheet, POSITION = YES, PATT.AFT R 84, TO R/L -6, REP.R = NO, REP.STS = NO, Knit Tech 188]. Welt, cuff = 1:1 rib [cast on 1, cont to knit]. Neckband = K/K [cast on 2]

Fig. I : Back
 A = tubular cast on for 1:1 rib [cast on 1, cont to knit]. B = knit acc to nd-diagram without deco card in col sequence [Knit Tech 188]. C = dec at each end, cont straight, cast off loosely.

Fig. II : Front
 A = as for Fig. I. B = knit acc to nd-diagram without deco card in col seq. Knit 68 R then begin with deco card 1, placing positioning pins as follows :

first pin under 1st nd from right edge of knitting, 2nd pin under nd 38 right of centre, 3rd pin under 1st nd left of centre. Knit pattern once through (i.e. RC 256) [Stitch patt 1221] → REP. POSITION = YES, PATT.AFT R 68, TO R/L 18, REP.R = NO, REP.STS = NO and acc to col sequence. C = dec at each end, cont in patt. D = divide work, cast off centre sts, place left half onto dekecomb, make note of deco patt position [if you knit without FORM-program, make note of electronic Row Counter position]. Cont to knit right half in patt, shape neck at left. Cast off loosely. Place left half back onto nds of machine and knit with reversed shapings.

Fig. III : Sleeve
 Knit once acc to nd-diagram without deco card [Knit Tech 188] and once with self-punched deco card 2 [self-drawn patt sheet, POSITION = YES, PATT.AFT R 84, TO R/L -6, REP.R = NO, REP.STS = NO, Knit Tech 188].

A = tubular cast on for 1:1 rib [cast on 1, cont to knit]. B = acc to nd-diagram without deco card in col sequence. Begin with deco card 2 after 84 R. Place positioning pins as follows : 1st pin under 1st nd at right of knitting edge, 2nd pin under 5th nd at right of centre, 3rd pin under 19th left of centre. Knit the pattern once (RC 220), inc at each end. C = shape sleeve head at each end, cast off loosely.

Neckband : Tubular cast on for K/K [cast on 2], black, over 84 nds, St.S 5 1/2, knit 8 R in K/K. Then Lock back and front CX, St.S 7 1/2, knit 8 R. End with a few R contrast yarn, release [the same for ELECTRONIC]. Release.
