

I made them
myself...

with my **ORION**
knitting machine

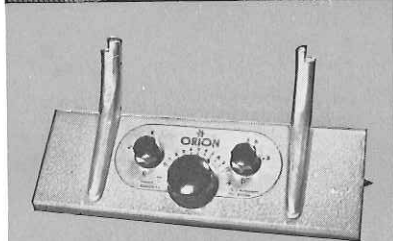

It was so easy with my

ORION

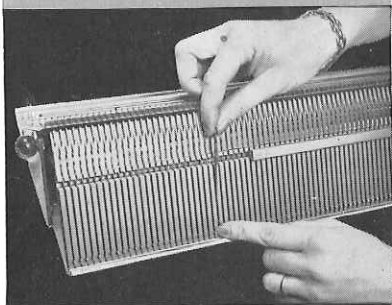

Threading the
wool prior to
automatic
casting on

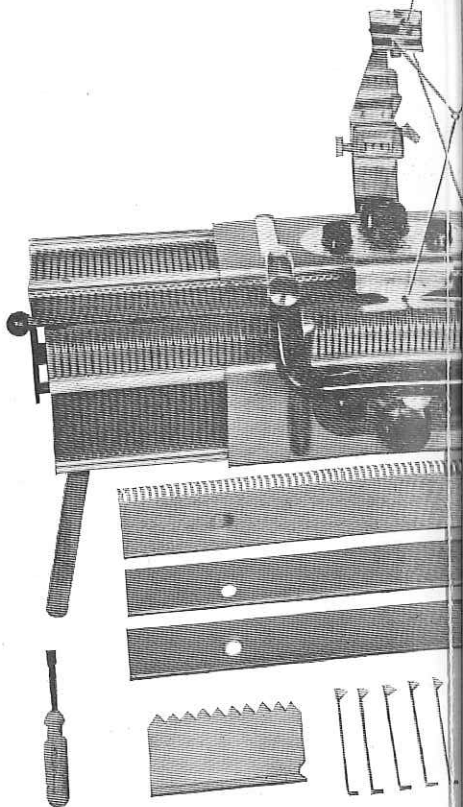

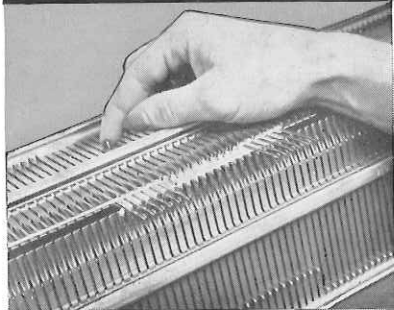

Shuttle slide
showing
tension and
control knobs

Changing
a needle

Needle holding
position

At last! a knitting machine that enables you to make everything from socks and scarves to full two-piece suits, rapidly, easily and with a really professional finish. Easy to learn, simple to operate and maintain, the ORION produces the best results for the least amount of effort; anybody can use it. A demonstration will show how you can both save money and make money.

Simplicity itself!

FEATURES OF THIS FAMOUS HOME KNITTER

30 needles in each bed

Can be joined in a single long bed of 360 needles

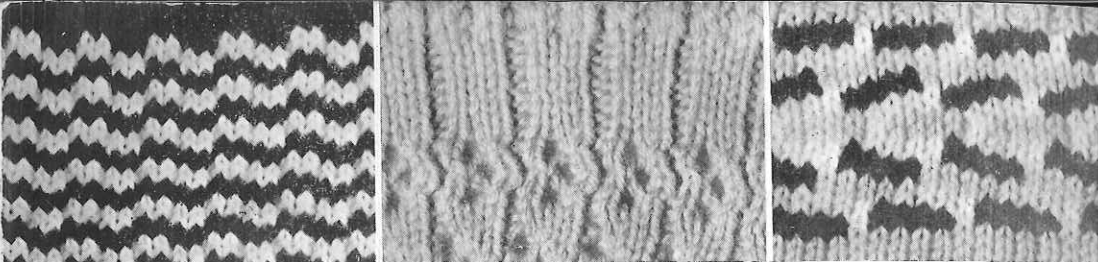

Combines strength with lightness, owing to all-metal needle bed; highly resistant to wear

Extremely simple to operate

Automatic casting on

Will knit all types of wool without difficulty

- ★ Will knit plain or purl stitches, ribbing, single or double texture fisherman's rib, zig-zag, seamless circular patterns etc., simply by using the control knobs and WITHOUT THE USE OF ANY ADDITIONAL ATTACHMENTS WHATSOEVER
- ★ The use of the HOLDING POSITION makes simple the turning of heels and the knitting of intricate patterns
- ★ Ultra-fine adjustment of tension
- ★ Hand knitting patterns can be used

Illustrated here is a selection of the amazing variety of both simple and intricate patterns that the ORION produces with such ease and rapidity. A demonstration will convince you of the remarkable efficiency and versatility of this wonderful knitting machine
